# 500 YEARS, 100 WATCHES

From two of the world's leading experts on watch collecting, this supremely elegant and informative selection of one hundred watches traces the timepiece's evolution as it highlights unusual, important, and beautifully crafted watches of the past half a millennium.

For centuries people have been captivated by watches—whether for their technical precision, their unique design, or their historic importance. Each of the one hundred watches profiled in this elegant book stands out for one or more of these qualities. Organised chronologically and divided by century, the watches are presented in spacious, double-page spreads, featuring exquisite photography with engaging, incisive texts.

Featuring exquisitely reproduced photographs that are appearing for the first time together in book form, this historic collection will appeal to sophisticated collectors, amateur watch enthusiasts, and anyone with an interest in the art and science of horology.

# MODIGLIANI

## MODERN GAZES

Discover the dramatic life and work of Amedeo Modigliani, a pioneer of modern figurative painting.

A groundbreaking new perspective on the painter's scandalous nudes.

Among the most celebrated works of Modigliani's brief but brilliant career are his large-format nudes. Drenched in colour and glowing with the artist's deep appreciation of women and the female form, these works ushered in a new era of nude portraiture, while also causing an enormous scandal.

This stunning exhibition catalogue offers a new perspective on this aspect of Modigliani's work by examining for the first time his portraits of emancipated women sporting coupe garçonne haircuts and wearing loin cloths. Modigliani was one of the first chroniclers of the femme moderne, which also influenced his nude painting and the scandal it caused.

# BOB DYLAN OUTLAW BLUES

Bob Dylan: Outlaw Blues by Spencer Leigh is a fresh take on this famous yet elusive personality, a one-man hall of mirrors who continues to intrigue his followers worldwide.

It is an in-depth account with new information and fascinating opinions, both from the author and his interviewees. Whether you are a Dylan fan or not, you will be gripped by this remarkable tale. Most performers create their work for public approval, but at the centre of this book is a mercurial man who doesn't trust his own audience. If he feels he is getting too much acclaim, he tends to veer off in another direction. Despite his age, Bob Dylan still tours extensively. Famously known for not looking happy, the author looks at what motivates him. 'Journalists are very fond of saying Bob Dylan is an enigma,' says Spencer Leigh, 'but that word is flawed. It's as good as saying you don't know... I have not called Bob Dylan an enigma at any point in the book as I have tried to find answers.' Spencer Leigh has spoken to over 300 musicians, friends and acquaintances of Bob Dylan in his research for this book.

...the pool was slowly shrinking. The limpets were already baking in the sun and soon the sea anemone would be stranded too.

"Don't worry! I'll save your pool," cried Fletcher, grabbing his bucket and wobbling over rocks to the sea. He panted back and poured water into the pool, but the limpets stayed stranded and the pool looked smaller still.

## CULTURE

# THE 1990s FASHION BOOK

The 1990s Fashion Book is a tribute to the unique fashion of that time. Flashy, colourful, casual and sexy, these were the attributes that applied back then. Top models, hip-hoppers or pop groups like Take That and the Spice Girls exemplified a fashion style that triggered a boom all over the world.

It is fair to say that, in retrospect, hardly any other decade has had such a formative effect on modern times as the 1990s. It is considered a decade of revolution, in which almost everything that had existed before changed at breakneck speed. This is when ground-breaking technologies such as the internet or nationwide mobile telephony came into being, without which our lives today would be unimaginable.

Modern pop culture and current fashion design originate to a large extent from the cradle of the '90s. Sub-trends of the time such as grunge, hip-hop, minimalism, casual chic and deconstructivism are, in retrospect, what continues to have an impact today.

# THE TIME TRAVELLER'S HERBAL

The herbalist has had many names throughout the ages - Cunning Woman, Wise Woman, even Witch - all hiding the truth of what they are... early pioneers of science, and fountains of traditional, nature-based knowledge.

All around us are plants and herbs that can be used to improve our wellbeing and encourage a more nature-focused approach to health. Steeped in history, the herbalist's art paved the way for modern science - but didn't necessarily need to have been replaced by it. In *The Time Traveller's Herbal*, the traditional remedies and recipes that were passed down through the ages are offered to the modern reader as a means to reconnect with the natural world, while reaping the benefits. Steeped in the stories through which these remedies have been passed down to us, our connection to the past is fully explored in a romantic and meandering journey through the plants and flowers that have healed and helped us through the ages. Travelling back through the mists of time, the ancient mysteries of the plants and flowers that have saved lives in a world without modern medicine are uncovered.

# THE ENDEAVOUR JOURNALS

## CAPTAIN COOK IN AUSTRALIA

In 1770 H.M. Bark Endeavour arrived in New Holland, Australia, the 'Continent of Smoke'. On board were Lieutenant James Cook, gentleman naturalist Joseph Banks, natural history artist Sydney Parkinson, and Midshipman James Magra. For the first time, this book combines the journals of these men to present a single, cohesive narrative that brings the story to life as never before. The journals are complimented by over 300 images, including charts, costal profiles, plans of harbours, and many original drawings executed during the voyage of the animals, people and landscape unique to the region. The story of New Holland is told in the words of the explorers themselves, containing first hand accounts of all the elements of drama, risk and first discovery. Focusing particularly on the contact with the Indigenous people and how they were first described by Europeans, this is an adaption of the discovery story made accessible to the general reader as well as the historian, without compromising the integrity of the original document. These adventurers were men of their own time, constrained by the common beliefs that fashioned the lives of people two hundred and fifty years ago.

*Tuesday 23. In the PM found a large number of the Wharfs in order to take out our stores &c. after which the ship was to be taken into the Harbour of the progress Officers all Departed without notice informed several of the aboriginals how with their own fingers they would stand & look on, who if we were permitted could do every thing wanting to the Ship, our selves*

*Saturday 3. This day proved as favourable to our purpose as we could. A fair abland was to be seen the whole day & the Air was perfectly clear so that we had our advantage we could observe the whole of the fingers of the fl. and when over the land we very distinctly saw an oblong head or dusky shade round the body of the flamed which very much disturbed the forms of the Contact particularly the two internal ones, I therefore observed as well as Mr. Green & my self, they differed from one another in observing the forms of the Contact, such as when could be expected. Mr. Green's telescope & mine were of the same Magnifying power but that of the Doctor's was greater than mine; I was nearly certain the whole day & the thermometer exposed to the sun about the middle of the day rose to a degree of heat we have not before met with.*

# ILLUSTRATED HISTORY OF THE AVRO LANCASTER

A photo-history of this pivotal and iconic World War Two bomber.

This new photo-history looks back at an aircraft that became an icon of British strategic air-power and contributed heavily to the securing of the Allied victory in World War Two. The ultimate British aerial strategic asset, the legend of the Avro Lancaster has endured. Tough, rugged, and able to perform effectively at high altitudes, the Lancaster proved to fit the RAF's need for a heavy, high-altitude bomber. From the risky, initial daylight bombing missions over Europe to the fire bombing of German cities, Dam Buster Raids, and sinking of the German Battleship Tirpitz, the Lancaster helped to profoundly secure victory for the Allies. This new book covers the fascinating story of Avro's aircraft design philosophy as well as its combat record and operational history in the post-war era.

# IMAGES OF WAR ROMMEL'S GHOST DIVISION

June 1940. In just weeks, General Erwin Rommel's 7th Panzer Division – dubbed the 'Ghost Division' – had driven headlong through Allied forces in Belgium and France to reach the English Channel.

Pushing south along the Channel coast past Le Harve, Rommel's spectacular victory at Saint-Valéry-en-Caux was crowned by the capture of Cherbourg.

Following the Franco-German Armistice and a victory parade in Bordeaux, cameras rolled as Rommel re-enacted crossing the Somme for the Nazi propaganda documentary Sieg im Westen (Victory in the West).

# BONEFIRE TAROT

Inspired by Sailor Jesse Collins' old-school tattoo flash and outsider art, the 2nd edition of Bonefire Tarot, brings you 78 energetic hand-painted Tarot cards with a 240-page companion book.

This new edition has seven new cards, new text and a completely redesigned package. It plunders time and space for universal symbols and features reimagined images to help you discover purpose-giving creativity. The archetypal energies of the Major Arcana figures represent figures in our lives, or aspects of ourselves or situations we are bound to encounter. The Minor suits have their own look and set of common symbols and are concerned with life's little details.

Along with a comprehensive glossary of symbols, three simple spreads, and descriptive essays to guide you, this set dangles the fruits of eternal truth just within reach, ripe and waiting to be gathered.

# U2: PAST, PRESENT, FUTURE

Follow this popular Irish band from its formation and early years through the release of its milestone albums and arena-packed shows. Explore, also, the challenges raised by the group's unwavering political and social commitment.

"We were a band before we could play", Bono tells us, and from the beginning U2 have been distinguished by their shared passion. What began in 1976 with Larry Mullen posting a "Musicians Wanted" ad on his school bulletin board led to an epic journey from Dublin clubs to stadiums around the world. This expressive coffee table book traces the great career of U2, who sold more than 130 million albums, revolutionised live performance, led political campaigns, and made music that defined our age. Discover insights in many personal accounts, photographs and recordings.

## Backlist Highlights

# WOODWORKING JOINERY BY HAND

Woodworking Joinery by Hand is a ground-breaking woodworking book that introduces a new twist on the traditional hand-cut methods of joint making.

One of the biggest challenges with conventional hand-joinery techniques is that the novice woodworker needs to first master the difficult skill of cutting perfectly straight and with a high degree of accuracy. With Sugita's unique method of guiding and controlling the saw blade using jigs and magnetic sheets, even a complete beginner can learn advanced joint-making techniques with hand tools alone. Making it easy to produce straight and square cuts, this pioneering technique is a game-changer for producing high-precision, beautifully made wooden joints.

Japanese-style saws only cut when pulled towards the body, allowing them to be made of thinner-grade metal and therefore cutting a finer, more precise line than more conventional western-style saws. This book won't just appeal to beginners, but also more experienced woodworkers who want to brush up on their sawing skills.

# KAFFE FASSETT'S QUILTS IN AN ENGLISH VILLAGE

Quilts in an English Village – a new collection of 19 exquisite quilts set off against the ancient half-timbered Tudor houses in the medieval village of Lavenham.

Kaffe has chosen the medieval English village of Lavenham in Suffolk to show off this exquisite new collection of 19 quilts, set off against the ancient half-timbered Tudor houses. They are displayed in all their glory in a sumptuous eye-catching quilt gallery.

Included in this set of new designs are many very special ones by Kaffe, and several by his long-time friend and co-designer, Liza Prior Lucy. This exquisite new collection of quilts, featuring both his scintillating new fabric designs and his classics, all in his unique colour palette.

This book, the 23rd in the series, includes a range of quilts for all skill levels, from beginners to advanced. Flat shots, a practical know-how section and glossary, back up the fully illustrated, step-by-step instructions, plus templates for each quilt. A practical know-how section covers all the information needed by less experienced quilters.

# GREAT LIVES IN GRAPHICS FRIDA KAHLO

Great Lives in Graphics: Frida Kahlo is a graphic retelling of Frida's story which gives children a colorful snapshot of her life and the world she grew up in, while educating them on everything from the Mexican revolution to the importance of self-belief.

You may already know that Frida Kahlo was an artist, but did you know she lived in a bright blue house? Or that she owned two pet spider monkeys?

Great Lives in Graphics reimagines the lives of extraordinary people in vivid technicolour, presenting 250+ fascinating facts in a new and exciting way. It takes the essential dates and achievements of each person's life, mixes them with lesser-known facts and trivia, and uses infographics to show them in a fresh visual way that is genuinely engaging for children and young adults. The result is a colourful, fascinating and often surprising representation of that person's life, work and legacy. Using timelines, maps, repeated motifs and many more beautiful and informative illustrations, readers learn not just about the main subject of the book but also about the cultural background of the time they lived in.
