BARBIE

Celebrate the sixty-fifth anniversary of Barbie in a book dedicated to the fascinating history of the world's most popular doll. Created by Mattel founder Ruth Handler, a game-changing feminist visionary, Barbie defied the conventions of the 1950s, establishing a role for women other than a wife and mother. With an identity outside of her family, Barbie represented an astounding modern departure, opening the imagination for what a doll—and a woman—could be. Decade by decade, the title comprehensively explores the Barbie doll's evolution from 1959 to today with fascinating facts, insights and never-before-seen imagery. From Marilyn Monroe to Margot Robbie, fashion designers to first responders, Barbie is the essential primer of an American phenomenon.

Today, more than a billion Barbie dolls with over 250 careers have been purchased worldwide, offered in an array of different nationalities, ethnicities, and body types.

MICHELANGELO AND BEYOND

Michelangelo's nude drawings are celebrated for their depiction of the heroic figure. Emanating exceptional strength, monumentality, and vigorous emotions, his nudes became the standard bearers for centuries of figure drawing. This book examines the legacy of that ideal, through highly engaging texts and luminous reproductions of drawings, prints, and sculptures. In addition to key works by Michelangelo—including drawings for the Sistine Chapel, the unfinished fresco of the Battle of Cascina, and the tomb of Pope Julius II—readers will discover works by Raphael, Dürer, Rembrandt, Rubens, Klimt, and Schiele.

Each chapter highlights a significant aspect of Michelangelo's ideal of the human body and investigates its influence and adaptation by his contemporaries and subsequent artists.

AMIGURUMI PEOPLE

In this stunning book by Mei Li Lee (amiguruMEI), you will get to meet the cutest crochet characters, each designed with a secret crochet tip to share. Make Austin the Astronaut for the little one who dreams of reaching the stars. Or the inseparable Grandma and Grandpa, in honour of your own two favourite people. From a ballerina to a firefighter and childhood friends dressed in kawaii animal-themed playsuits, the amigurumi people in this book might just bring you fond memories of someone you've met, and would like to meet again in the near future.

To make your amigurumi journey that much more enjoyable, we've packed the pages with useful techniques on how to crochet hair that curls a certain way and whip up colourful crochet clothes and accessories to match. Each pattern comes with complete step-by-step instructions so you can sit back and focus

THE HITLER MYTHS

Adolf Hitler remains one of the most discussed figures in world history. Every year, an untold number of articles and books are published, and television programmes and internet pages are produced, by respected historians through to amateur conspiracy theorists. One of the consequences of this continuous flow of stories is that, over time, increasing numbers of falsehoods and fabrications have emerged about Hitler. Many of these have subsequently gained credence by virtue of their constant repetition – however bizarre they may be.

In *The Hitler Myths* the author clinically dissects many of these myths, often in a highly amusing fashion, as he exposes the inaccuracies and impossibilities of the stories. The myths – the familiar and the obscure – are discussed chronologically, following the course of Hitler’s life. In his analysis of each of the myths, the author draws on an array of sources to prove or disprove the rumours and speculations – once and for all!

TAROT LANDSCAPES

MANUAL AND DECK OF 78 CARDS

Tarot Landscapes is a one-of-a-kind tarot deck where each Major and Minor Arcana is depicted inside an evocative landscape offering its own symbolism, inviting the modern tarot reader on a journey to discover the answers they are looking for through suggestive storytelling and nature.

In this deck the reader explores not only 78 Rider-Waite-Smith tarot cards, but also the poignant landscapes they each inhabit. Dream and fantasy surround every Arcanum with more parallels to our everyday life than we can imagine. The deck is complemented by a comprehensive manual providing guidance for tarot readers, old and new, as well as instructions for how to read the tarot landscapes. The cards include:

- ♥ 22 Major Arcana, each reinterpreting the traditional symbolism from a Rider-Waite-Smith tarot card in a new and unexpected way
- ♥ 56 Minor Arcana divided into 4 suites of 14 Wands, 14 Pentacles, 14 Cups, and 14 Swords, all placed in a mystical and wild setting

V The Hierophant

Two chickadees sing and flit around a large oak tree that dominates the scene from a hill. The trunk is vast, and a strange little door could open a path to new, hidden worlds. This is a sacred place to climb to, leaving the city and the fog behind, reconnecting with the same spontaneity as a little spring bird to the fundamental teachings of life, encountering others, embracing family traditions and discovering others, taking root. In the landscape of the Hierophant, you are in the arms of the most authentic masters who can teach you how you are connected to each and every element of life, even when you speak different languages. Learning does not mean blindly obeying but rather touching the limits of all knowledge, taking to heart what is handed down to you without judgment and with care, and finally lifting your roots to walk onward—beyond the human, the tree, the animal and toward brother or sister.

- ◆ **POSITIVE**
listening, sharing knowledge
- ◆ **NEGATIVE**
ingratitude, spiritual crisis

23

VII The Chariot

The road stretches straight out toward the horizon; the trees arch overhead to let the traveler pass through the landscape of the Chariot, directing them to their destination. An eagle, a symbol of looking ahead and determination, shows us the way to the light. Follow your instinct, the will you found through the Magician, when you get on the Chariot and move with his own determination. "Dare!" the eagle screeches at you as it quickly emerges from the arched trees and darts into the heights of the sky, a messenger of light. And yet, this is not all the landscape has to offer. There are gray areas between the trees, cracks, and small paths, so we are entering the uncultured, the unknown. You risk losing your path to enter. Continuing also means paying attention to how much you leave behind, how much is outside of your control. Carry out your vision, knowing that it is just one of many.

- ◆ **POSITIVE**
determination, ambition
- ◆ **NEGATIVE**
ruthlessness, lack of control

27

QUEEN OF Swords

In an extreme landscape made of snow, sky, and peaks, the white owl is crowned by a nest of branches and ice, sharpening her vision in the cold. Like all birds of prey, she knows how to wait, scan the darkness, and shelter from prying eyes. She is the Queen of Swords, whose throne soars higher than anyone else's: kings, queens—whoever they are. From there she can collect and ponder the diverse knowledge of the world, making everyday decisions about how to act. She teaches how to measuredly evaluate any advice and experience.

- ◆ **POSITIVE**
logic, perception
- ◆ **NEGATIVE**
jealousy, cruelty

19

KING OF Swords

A condor is perched atop a peak of rugged rock, the nest from which he contemplates the surrounding place. The bird has a long life, allowing him to sharpen his view on the matters of the world. In him, you can recognize the King of Swords, a proud and just strategist, the figure in whom power unites with integrity of thought and the wisdom that comes from having known well the many forms of existence. Rock and sky mix to forge his intellect. With him at your side, ideas feed on truth.

- ◆ **POSITIVE**
integrity, authority
- ◆ **NEGATIVE**
threat for power, inhumanity

TOKYO TOKYO

A unique book by photographer Richard Koek about one of the world's largest cities, Tokyo.

The visitor of this megapolis in Japan will see a lot of neon and plastic, but also traditional kimonos and cherry blossoms. Fashion and advertising are at least as important as etiquette and tidiness. In Tokyo Tokyo Koek reveals the true face of a city where tradition and innovation go hand in hand. Surely the stereotypes are a subject of his photographs, but Koek always gives them his own twist. His colourful images are raw, realistic and extremely striking. Koek knows how to capture the magic of everyday life by putting the ordinary on a pedestal. The beauty of the image and the story behind it always go hand in hand in his works. This is how he shows a different side of the city.

ELLA IN THE GARDEN OF GIVERNY

A PICTURE BOOK ABOUT CLAUDE MONET

When a young girl meets the famous Claude Monet in his garden at Giverny, she learns the importance of staying true to your own vision.

This intriguing child's-eye view of Claude Monet and his works starts at the turn of the 20th century, when American artists flocked to Giverny to study the painter's technique. It tells the story of Lily, the daughter of one such artist, who sneaks into Monet's garden and develops a friendship with him. As Lily sketches, Monet talks about his life. He explains the idea of Impressionism in a way that will make children not only understand the genre, but also want to imitate it themselves.

Young readers will learn about important moments in Monet's life, while also appreciating the easy camaraderie between a wise and experienced artist and a young, opinionated yet impressionable painter. The book ends with a brief biography of Monet and information about Giverny and museums that feature Monet's work.

WATERCOLOR FOR THE SOUL

Learn how to use watercolour to soothe your soul with this beginner's guide to painting for relaxation.

This fresh approach looks first at the process of painting as a means to de-stress and unwind. Many people love the idea of painting but hold themselves back from starting because they are worried about not being good enough or not feeling as though as are creative. In this guide for the absolute beginner, artist and teacher Sharone Stevens shows you that watercolour can be accessible to everyone and that just painting very simple lines, patterns and shapes in calming colours, concentrating on each brush stroke, can have a powerful meditative effect, while at the same time allowing you to create beautiful art you can be proud of. She also encourages you to connect more with the world around you, finding inspiration in your every-day life and discovering the beautiful textures found in nature, from tree trunks to fruit and butterflies!
