INTERIOR DESIGNERS AT HOME

This book takes you on a guided tour of 20 leading interior designers' homes with tips and insights for creating spaces that work and look great.

Learn how interior designing is as much about problem-solving as it is about inspiration, aesthetic, and function as leading interior designers share the challenges they faced and the rewards they received when creating their own homes.

As their own clients, these designers can afford to be considerably braver, breaking rules in favour of experimenting with materials and spaces and showcasing personal items like art or mementos from travels to tell a story. This intimate understanding of their process is inspirational, especially when coupled with practical tips from each.

Organized by inspiration, aesthetic, and function, the homes show a range of styles from minimalist to maximalist.

LEONARDO, FRIDA AND THE OTHERS

THE HISTORY OF ART, 800 YEARS - 100 ARTISTS

This fresh and engaging, illustrated history of art explains the fundamentals every art lover needs while presenting the development of different schools and styles as one continuous, astonishing timeline— from Giotto to Leonardo, Frida to Banksy.

When she became interested in painting, the author would visit museums and wonder about all the information she was missing. How did one style develop after another? What meanings were hidden in these works? What were these artists' lives like? How did their works survive for so many years? She longed for the kind of essential knowledge that would enable her to decode a painting loaded with references. The result of her curiosity is a highly accessible and vividly illustrated book that brings together the fundamentals of eight centuries of art. It covers the basics about such topics as how museums are structured, how painters use proportion and perspective, the anatomy of a painting.

Accompanying the unpretentious but authoritative texts are hundreds of illustrations, reproductions, timelines and sidebars.

Claude Monet

Outdoor enthusiast

An avid painter who painted outdoors and continuously observed the effects of light, Monet is probably the most famous of the Impressionists. Instead, one of his paintings could give the movement its name in 1874.

1840 Born in Paris, France

1875 Exhibited 'Impression, Sunrise' at the Salon des Refusés in Paris

1926 Died in Paris, France

WHAT ARE WE LOOKING AT?
In 1890, Monet and his wife Alice moved to Giverny, Normandy, where he spent the rest of his life. He painted many of his most famous works there, including 'Water Lilies' and 'The Japanese Bridge'.

KEY WORDS
Impressionism, Luminism, Water Lilies, Japanese Bridge, Giverny

HOW DOES IT RELATE TO THE HISTORY OF ART?
Monet's work was a key part of the Impressionist movement, which focused on capturing the effects of light and color in the natural world.

WHY IS IT IMPORTANT?
Monet's work was a key part of the Impressionist movement, which focused on capturing the effects of light and color in the natural world.

Jean-Michel Basquiat

From graffiti to autograph

A young graffiti artist, Basquiat went from being a rising figure of street culture to an international celebrity. His work has inspired the look of diversity in contemporary art.

1960 Born in New York City

1981 Exhibited 'My Skull' at the Museum of Modern Art

1988 Died in New York City

WHAT ARE WE LOOKING AT?
Basquiat's work is a mix of graffiti, street art, and traditional painting. He often used bold colors and expressive brushstrokes to create powerful images.

KEY WORDS
Street art, Graffiti, Urban art, Neo-expressionism

HOW DOES IT RELATE TO THE HISTORY OF ART?
Basquiat's work was a key part of the Neo-expressionist movement, which focused on emotional and expressive painting.

WHY IS IT IMPORTANT?
Basquiat's work was a key part of the Neo-expressionist movement, which focused on emotional and expressive painting.

Frida Kahlo

Painting pain

Frida Kahlo depicted emotional turmoil and a glamorous marketing queen, which helped to make her a successful artist. Her work is a mix of self-portraits and social commentary, often inspired by her suffering and her political beliefs.

1907 Born in Mexico

1940 Exhibited 'Self-Portrait with Broken Heart' at the Museum of Modern Art

1954 Died in Mexico

WHAT ARE WE LOOKING AT?
Kahlo's work is a mix of self-portraits and social commentary, often inspired by her suffering and her political beliefs.

KEY WORDS
Self-portraits, Social commentary, Mexican art

HOW DOES IT RELATE TO THE HISTORY OF ART?
Kahlo's work was a key part of the Mexican art movement, which focused on national identity and social issues.

WHY IS IT IMPORTANT?
Kahlo's work was a key part of the Mexican art movement, which focused on national identity and social issues.

CREATIVE ABSTRACT WATERCOLOR

Learn how to create dynamic, original abstract art using easy techniques and nothing more than watercolour paints and a few pens.

Let your creativity loose and start making art, without getting bogged down in detail or accuracy - just allow yourself to experiment, have fun, be present and play with colour, shape and texture to your heart's content. In this unique step-by-step book, you'll discover watercolour techniques, tips and tricks to create your own vibrant art, letting the natural watercolour flow to help form your composition and inspire further mixed media embellishment.

Through a variety of projects, including simple shapes, abstract botanicals, and expressive landscapes, you'll learn easy techniques to combine colour, texture, and contrast in exciting ways, and how to add gorgeous embellishments using gel pens and metallics to make your abstract pieces shine.

FLIP-A-GATOR

Flip and flop heads, bodies, and tails to make 1,000 scaly beasts!

Best-selling illustrator Sara Ball brings more mix-and-match fun-this time with reptiles and amphibians! In Flip-a-gator, you get to create zany combinations with the heads, bodies, and tails of ten different creatures, including a curious iguana, a creeping lizard, a croaking frog, and a slithering snake.

Each flap features a fun fact about the pictured species, and inside the front cover is a chart showing the relative sizes of the reptiles and amphibians featured, from the gecko to the alligator.

BRAVE AS A LION

CHOOSE YOUR MOOD, EXPRESS YOUR FEELINGS

These Choose Your Mood Puzzle Books are a fun, interactive way for young children to recognise their emotions and feelings, using double-sided puzzle pieces that also fit together for extra fun.

Teresa Bellón's animal characters visualise the moods and feelings so children can identify their own. There are fun cues underneath the puzzle pieces encouraging children to express positive feelings, or turn negative feelings into more positive ones, and the puzzle pieces offer parents and carers a tool to open conversations to foster good mental health through play.

Are you as BRAVE as a lion, or as WORRIED as a warthog? Find the brave inside you by roaring like a lion!

PLAYTIME!

A TUMMY TIME PLAY BOOK FOR BABIES

This high-contrast fold-out book with finger wiggle holes encourages key developmental skills while you have fun together.

- ♥ Bold black-and-white images with splashes of colour for your baby's developing vision
- ♥ Use the finger wiggle holes to entertain your baby as you read and play with the book together
- ♥ The simple text will help your baby with sound making and introduces new vocabulary

One side features all your favourite animals and by putting your finger through the hole it becomes an elephant's trunk trumpeting loudly or a puppy's tail wagging excitedly. On the other side is a wiggle train and only you know where the wiggly worm will pop out next. Your baby will love the anticipation and will turn their head towards the movement.

So go on. Read to your baby. It's good for them!

TINY, FLOATING CORAL

Start Small, Think Big is a series that sets young readers on a journey of discovery, beginning from the small and familiar to new areas of knowledge where they really have to think big!

Tiny Floating Coral starts with a microscopic coral planula floating through the Coral Sea in a soup of plankton. It is looking for the perfect place to settle, divide and grow. It finds a place on a healthy reef off the coast of Australia. Learn about this remarkable animal, how it feeds, starts a colony and becomes a part of the Great Barrier Reef - a vast underwater city where other animals live, feed, hide and bring up their young. The story's narrative progresses in a way that builds understanding, and the delicate illustrations bring the story to life.

I CAN DO THAT TOO

A BIG HEDGEHOG AND LITTLE HEDGEHOG ADVENTURE

The beloved hedgehog duo returns in a charming story about big ambitions and small victories.

It's a busy day in the woods for Big and Little Hedgehog, who meet all kinds of animal friends, each of whom can do something special that Little Hedgehog wants to do. Ladybug climbs a tree and jumps off a branch; mole digs a hole; fish swim in the pond. Sometimes Little Hedgehog is successful and sometimes he learns that he's just not up to the task. As they find their way home with the help of a turtle, an owl's hoot sends Little Hedgehog off to sleep with one last cry of "I can do that too!"

Filled with Teckentrup's signature, beautifully textured artwork, this gentle book helps kids understand that it's okay to want to do things, and it's okay if you're not quite ready.

MY CROSS STITCH DOLL

Create beautiful, embroidered dolls with easy cross stitch patterns and simple sewing techniques.

First, choose your doll from one of the 20 delightful patterns included, then stitch your front and back panels. Once completed, place the two pieces right sides together and sew around the outline, leaving a gap for turning. Turn it right sides out, stuff, sew up the gap and hey presto - you've made a dolly! This simple process means you can make a beautiful handmade doll with the minimum of skill or experience, creating a treasured heirloom that, if cared for, will last for generations.

The 20 doll patterns include a wide range of skin tones, hairstyles and clothing with the option to change any of the colours to suit your own tastes. With full-colour charts for the cross stitch patterns, and step-by-step instructions and tips for sewing the dolls, this book will have you itching to stitch cute dolls all day long!

100 KNITTED TILES

A collection of 100 knitting charts and patterns for designs based on decorative tiles.

Decorative tiles have long been a source of inspiration for designers and artists due to their often intricate patterns and colours. This collection of knitting patterns and charts includes 100 designs inspired by decorative ceramic tiles from around the world.

Choose from brightly coloured colourwork designs to simple textured motifs that evoke everything from Victorian floor tiles to the intricate and brightly coloured designs of ancient temples and palaces.

Using a variety of different colourwork knitting techniques such as stranded knitting, mosaic knitting, and intarsia, as well as textured and lace knitting techniques and special stitches a number of talented knitting designers have developed their own interpretations for you to create with yarn.

AWESOME ICE POPS

70 COOL TREATS

From fruity to boozy, there's enough variety in Awesome Ice Pops to keep you and every member of your family experimenting all summer long!

Making your own ice pops is one of the easiest ways to create mouth-watering homemade treats. The world's favourite hot-weather pick-me-up can satisfy every craving, from fresh and fruity to rich and creamy.

This tantalizing collection contains a wide range of recipes, including tastier versions of old standards like Fudge Ice Pops and Orange Cream Ice Pops to globally inspired flavours, like Hong Kong Milk Tea Ice Pops and Strawberry Lassi Ice Pops, and even cocktail-inspired ice pops (Margarita Ice Pops, anyone?). With recipes to appeal to kids and adults alike, this book provides a super -fun and easy, not to mention delicious, way to cool off.

THE GARDENS OF ARNE MAYNARD

The new compact hardback edition of the first book devoted to the work of one of today's most celebrated garden designers.

Arne Maynard is known for his award-winning gardens at the Chelsea Flower Show and his elegant and sympathetic gardens for private houses worldwide. Central to his work is his ability to draw out the essence of a place - a talent that lends his gardens a particular sense of harmony and belonging. A passionate gardener himself, Maynard has transformed the garden around his house, Allt-y-bela, in rural Wales. This garden is featured in the book, offering insights into the work in progress and Maynard's design methods. A total of 12 gardens have been specially photographed, and each is described through the seasons in a personal text by Maynard, including details of the brief and the plant selection. The Gardens of Arne Maynard is completed by illustrated features on various topics close to the designer's heart, such as growing and using roses, planting borders, creating productive kitchen gardens, incorporating sculpture in the garden, and training trees and shrubs.

WORLD'S FINEST APARTMENTS

This lavishly presented coffee table book, bound in natural linen, features 26 of the most beautiful and inviting residential apartments, lofts and penthouses from all over the world.

Designed by today's most in-demand architects and interior designers, this lavish book gathers exceptional apartments, lofts and penthouses from around the world.

This carefully curated book presents twenty-six new or renovated spaces for city living, showing the great diversity of their functional and design possibilities. These exclusive apartments are often surprising, and always inspirational.

Featuring outstanding photography, World's Finest Apartments guides the reader on a journey from Sao Paulo to London, from New York to Paris, from Madrid to Milan, from Sydney to Vancouver... No passport required!

LANDING IN THE DAWN

DISSECTING A LEGEND

THE LANDING AT ANZAC, GALLIPOLI, 25 APRIL 1915

The Gallipoli Landing of 25 April 1915 is arguably Australia's best known battle. It is commemorated each year with a national holiday, services, parades and great media attention. 2015, the centenary of the Gallipoli Campaign, was marked by great publicity and the release of many books, articles, films, documentaries and television series.

Despite this attention, the Landing is still a poorly understood battle, with the historiography coloured by a century of misinformation, assumption, folklore and legend.

The Landing in the Dawn: Dissecting a Legend - The Landing at Anzac, Gallipoli, 25 April 1915, re-examines and reconstructs the Anzac Landing by applying a new approach to an old topic - it uses the aggregate experience of a single, first-wave battalion over a single day, primarily through the investigation of veteran's letters and diaries, to create a body of evidence with which to construct a history of the battle.

SOUTH PACIFIC AIR WAR

In 1943 the Allies chipped away at the defensive outer barrier of the Japanese Pacific empire, particularly in the Solomon Islands. US Marine and Army infantry trudged through bloody jungle fighting on remote South Pacific islands such as Guadalcanal, New Georgia, and Bougainville.

The US Navy waged war on Japanese shipping, seeking to prevent reinforcement and resupply for the battered Japanese ground forces. Particularly celebrated are the tiny PT boats, such as John F. Kennedy's PT-109, which charged destroyers head on. In this work, author Richard Dunn adds a third dimension to the history of the New Guinea and Solomon Islands campaigns by detailing the pivotal role of airpower. Dunn has formulated his narrative by studying and comparing Allied and Japanese reports, many of which reside in his personal collection.

BY DIVINE INSTRUCTION LESSONS IN METAPHYSICAL HEALING

We all have an innate ability to heal ourselves emotionally, mentally, physically and so much more...

In 2019, following the onset of a mystery illness, Ann M Basili embarked on a "self" healing journey consisting of daily meditations and communication with a higher power. What resulted was a series of Divine Instructions for how to heal herself from the illness, and more.

Reflecting on the self-healing instructions she received, Ann resolved to teach them through her courses, in her counselling practice, and now in an easy to follow, step-by-step book as gentle, guided Metaphysical Healing Meditations and inward reflection exercises to facilitate self-healing at the quantum level.

If you've ever wanted to learn how to heal yourself in an easy, uncomplicated way using simple techniques to create your own self-healing toolkit, then this book is for you.

Welcome to the new paradigm of self-healing.

THE EMOTIONAL INTELLIGENCE BOOK

Emotional intelligence (EQ) is the ability to manage your own emotions and those of others. It is one of the most underrated skills in business and work that anyone can develop and use effectively.

In this book, a leading EQ practitioner with more than 25 years commercial experience shows you how to develop your self-awareness, social skills, self-management and ambition in order to cope with and succeed in your work and career.

The great news is that your EQ – unlike your IQ – is not fixed, it can be developed over time with a bit of guidance and practice. The Emotional Intelligence Book provides practical and authoritative advice on making a difference through EQ.

Each book in this smart and stylish series contains simple ideas, tips and visual guides to help readers make sense of hot topics.

The series addresses the various challenges that one faces in daily working life.

SHORT CUTS: PSYCHOLOGY

NAVIGATE YOUR WAY THROUGH THE BIG IDEAS

What with visual illusions and misinformation, positive mindsets and negative thoughts, social anxiety and personal constructs, the modern landscape of the human mind is an intriguing place to explore. But how are you expected to navigate this hidden world?

Short Cuts: Psychology provides the map you need to start exploring seriously big ideas. Fifty quickfire questions lead to 'short cut' answers written by experts in their field, with each one the setting-off point for clear directions to help you plot your route through an essential concept.

With one-stop graphics presenting a memorable image for each idea, and route-map glossaries explaining key words and their connections, Short Cuts: Psychology will lead you through a world of intellectual wonders.

Why did you do that?

→ If someone does something bad, we tend to assume that this tells us something fundamental about them, and that they must be a bad person. But we're often wrong.

→ People that you make a bad first impression on are often just having a bad day. They're not necessarily bad people. They're just having a bad day. They're not necessarily bad people. They're just having a bad day. They're not necessarily bad people. They're just having a bad day.

The fundamental attribution error is a cognitive bias that leads us to overestimate the role of personality in explaining other people's behavior. It's the tendency to see someone's actions as a reflection of their character, rather than as a result of situational factors. This is often done without conscious awareness. It's a natural part of how we think about other people. It's a natural part of how we think about other people.

How do you measure personality?

→ Different psychologists have different answers to this question. Freud thought that the secret to personality lies in the unconscious mind and is formed through childhood experiences. Others have used statistical methods to measure personality.

→ Personality is a complex trait that is difficult to measure. It's a complex trait that is difficult to measure. It's a complex trait that is difficult to measure. It's a complex trait that is difficult to measure.

Personality is a complex trait that is difficult to measure. It's a complex trait that is difficult to measure. It's a complex trait that is difficult to measure. It's a complex trait that is difficult to measure.

What with visual illusions and misinformation, positive mindsets and negative thoughts, social anxiety and personal constructs, the modern landscape of the human mind is an intriguing place to explore.

Why are we irrational?

→ Probably because we're not robots. Humans are incapable of operating on a purely rational level because we have emotions that guide how we make decisions and how we behave.

→ Emotions are a natural part of being human. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw.

Emotions are a natural part of being human. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw. They're not a flaw.

Do you work better under pressure?

→ Stress can lead to sweaty palms and shallow breathing. No one likes to feel overwhelmed at work, but studies show that a little bit of stress can sometimes improve performance.

→ Stress is a natural response to a challenge. It's a natural response to a challenge. It's a natural response to a challenge. It's a natural response to a challenge.

Stress is a natural response to a challenge. It's a natural response to a challenge. It's a natural response to a challenge. It's a natural response to a challenge.

TEN TANTALISING TRUTHS

WHY THE SKY IS BLUE, AND OTHER BIG ANSWERS TO SIMPLE QUESTIONS

Obvious questions do not always have obvious answers.

John Gribbin is known for giving us simple explanations of big concepts in science. But there is another way to probe the mysteries of the Universe and our place in it. Faced with persistent enquiries from his grandchildren, Gribbin realised that simple questions, such as 'Why is the sky blue?', sometimes require big answers, understandable in straightforward language.

In answering those simple questions, he discovered that he was telling the story of our place in the Universe, from the Big Bang to the evolutionary reasons why men are, on average, bigger than women. The questions may be obvious, but the answers are sometimes surprising and highlight one of the main joys of science – discovering the unexpected.

In this book, Gribbin invites the reader to join him on this voyage of discovery, where you may think you already know the answers but should be prepared to be surprised – or at least, tantalised by the truth.

VAN LIFE

CULTURE, VEHICLES, PEOPLE, PLACES

Van vacations and van living has attracted a new following at a time of increased outdoor-oriented and local travel.

From the fringes of society to the envy-inducing images on social media, how and why has vanlife become more popular than ever before? What does this tell us about our love of travel and our ideas of home? And how do camper vans address issues of minimalism, freedom and sustainability?

The creators of The Rolling Home Journal bring you a timely, attractively priced paperback re-issue of The Complete Vanlife Book, with essays, interviews, illustrations, and photographs that tell you everything you need to know about vanlife culture. On a practical level the authors impart the basics of compact interior design and van conversions, along with inspiring personal accounts of living and travelling by van.

THE SKATE BOARDING FIELD MANUAL

An illustrated guide to skateboarding skills and techniques.

Skateboarding is more than a sport; it is a passion and way of life driven by those who love to push the limits of gravity and inertia while bending the notions of social acceptability. The Skateboarding Field Manual addresses both the intricacies of the sport and the intangibles of its culture. Skateboard enthusiast and journalist Ryan Stutt provides outstanding advice, which ranges from how to stand on your board and how to fall without causing injuries to how to perform grinds, slides and flips.

This comprehensive reference is simply the very best manual on the sport of skateboarding. There are 33 maneuvers and tricks for beginners to intermediates, all illustrated with over 350 custom colour photographs by skateboarding photographer Harry Gils.

The Skateboarding Field Manual is the essential guide for anyone looking to master the art of skateboarding and to understand its unique culture.

PAUL GAUGUIN MASTERPIECES OF ART

New edition of the popular introduction to Paul Gauguin, part of the Flame Tree Masterpieces of Art series

Gauguin began his artistic life as an Impressionist in Paris, but yearning for a wider world view he experimented with decorative art and bright colours to create what some have termed Symbolism. He painted briefly with Van Gogh but was strongly drawn by the “otherness” of the South Pacific to which he travelled frequently, and finally settled far away from his origins and early influences to create a unique and intensely personal body of work. The new edition of this beautiful new book revels in the scenes of Tahiti, the sunlit bodies, the shapes and styles of the South Pacific each of which have secured him a unique place in the history of art.

INTRODUCING QUANTUM THEORY

A GRAPHIC GUIDE

Scientists such as Planck, Einstein, Bohr, Heisenberg and Schrödinger uncovered bizarre paradoxes in the early 20th century that seemed to destroy the fundamental assumptions of 'classical physics' – the basic laws we are taught in school.

At the sub-atomic level, one particle seems to know what the others are doing, and according to Heisenberg's 'uncertainty principle', there is a limit on how accurately nature can be observed. And yet quantum theory explanations are amazingly accurate and widely applied, explaining all of chemistry and most of physics.

Introducing Quantum Theory is a step-by-step tour, tackling the puzzle of the wave-particle duality, along with the two famous questions raised against Bohr's 'Copenhagen Interpretation' – the 'dead and alive cat' and the EPR paradox, both of which remain unresolved even now.

Notoriously difficult, quantum theory is nonetheless an amazing and inspiring intellectual adventure, explained here with patience, wit and clarity.
