### New Releases | June 2022

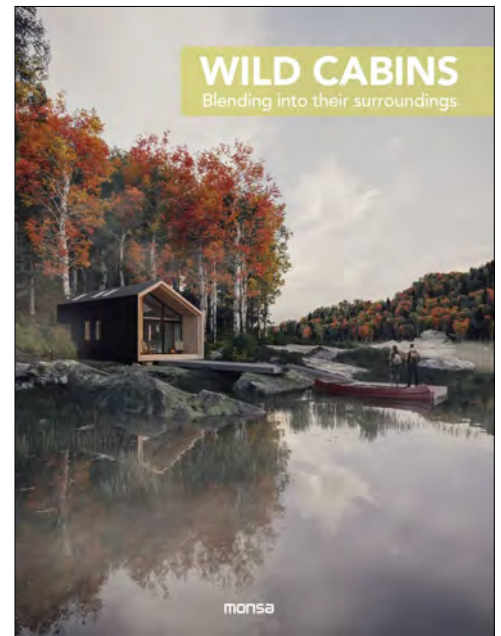

# WILD CABINS

Blending into their Surroundings

Today's cabins are for all-season use, making them the delight of hikers, explorers and urbanites searching for peace of mind. They are practical, comfortable and built to withstand the harsh climates in the high mountains or the rugged coast. Some are basic and sparsely fitted shelters; others are unique "glamping" retreats with all the comforts of the home.

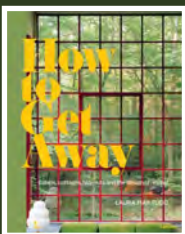

Clearly, the idea of escaping to remote locations to reconnect with nature has expanded its experiential boundaries, but traditional cabins prevail as timeless structures that sensibly integrate into their surroundings. Glass and wood take centre stage as the predominant materials used inside and out. Generous fenestration opens interior spaces to the daylight and the views. Sustainable principles and the designs they generate evolve to reflect the use of materials and technology that is inherently linked to a place and time.

# MATISSE

## Masters of Art

Learn about Henri Matisse, one of 20th century's most beloved artists, and his artistic legacy.

From his earliest pointillist-influenced paintings to this mature and playful paper cut-outs; from enormous, ebullient murals to reverent stained glass - Henri Matisse was renowned for his dramatic use of colour and fluid draftsmanship. Thirty of Matisse's most beloved works are given close attention in this introduction that explores the varying tensions of the artist's oeuvre - his embrace of pure colour, patterns, and texture; the languorous pleasures of the Cote d'Azur; primitive displays of human ecstasy; tranquil scenes of domestic life and soaring monuments to religious life. An engaging biography takes readers through every phase of Matisse's career and reveals how his aversion to troubling or depressing subject matter was in direct opposition to the radical spirit of his work.

Baker II (The Young Sailor), 1916

Henri Matisse's Baker II (The Young Sailor) is a painting that depicts a young sailor in a dark, patterned jacket and a cap, sitting on a wooden chair. The background is a simple, light-colored wall. The painting is characterized by Matisse's signature style of bold colors and simplified forms.

Public Blue Windows (Final blue glass), 1948

Henri Matisse's Public Blue Windows (Final blue glass) is a stained glass window. It features a central figure in a blue robe, surrounded by a grid of colorful glass panels. The overall composition is balanced and harmonious, reflecting Matisse's mastery of color and light.

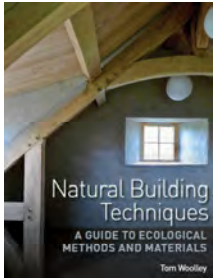

The Eggplant Curtain, 1948

Henri Matisse's The Eggplant Curtain is a painting that depicts a window with a colorful, patterned curtain. The curtain is the central focus, with its vibrant colors and intricate patterns. The background is a simple, light-colored wall, which makes the curtain stand out even more.

# BAUHAUS

## A GRAPHIC NOVEL

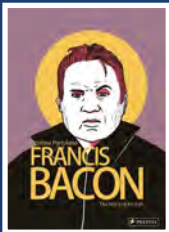

The main character of this extraordinary graphic novel is not a person but an idea - the school of Bauhaus, which arose in the wake of World War I, and emerged as the fundamental reference point for virtually every avant-garde artistic movement that followed. Visually arresting illustrations and engaging texts place the novel's protagonist squarely in the middle of the twentieth-century debate on the relationship between technology and culture.

The novel is divided into three chapters that trace the evolution of the Bauhaus, as its centre moved across Germany - from Weimar to Dessau to Berlin - and as its philosophy responded to this economically, politically and intellectually highly charged era in Europe.

The perfect introduction to a radical but highly influential chapter in the history of design, this novel shows how the Bauhaus school broke down barriers and built up ideals that are still applied today.

# Margo Lewers

## no limits

20th century modernist artist Margo Lewers (1908-1978) refused to be constrained by the traditional roles of women as wives and mothers. While embracing the technological and social advances of a new era, she also challenged the convention of art as representation, believing that creativity required the expression of feelings and emotions.

Primarily known as an Abstract painter, Margo worked in a variety of other media that few artists would dare to tackle. In all aspects of her life 'she embraced modernism not as a style but an ideology for a new way of living.' This is represented in the holistic, integrated environment of her home at Emu Plains that has now become the Penrith Regional Art Gallery and Lewers Bequest. First-hand, personal experiences and independent, original research by the authors of five essays bring new insights to the power and range of Margo's creativity.

# Birds Fold & Play

From the creator of ArchiPop and ArchiTek, comes the next title in the Origanimo series that features fantastical birds ready to... Popout! Fold! Soar!

Are you ready to Origanimo? Origanimo is an early introduction to paper engineering that helps develop sequencing, spatial, and fine motor skills and fosters creativity.

Let your imagination take hold as you follow the instructions to create all 12 bright, bold, colourful imaginary birds to complete your very own aviary. These precut and creased stylised birds are ready to pop out and fly right off the page in just a few easy folds. Children will have fun folding and collecting them all. No scissors or glue required!

Get ready to create your own fantastical aviary.

# DINOSAUR ACTIVITY PACK

Travel back to the wonderful world of dinosaurs!

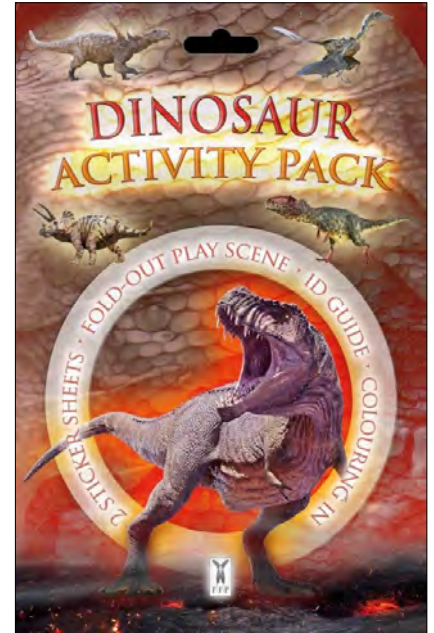

This on-the-go activity pack includes a fold-out sticker scene; two sheets of stickers, a colouring-in sheet, an ID guide as well as some amazing facts. It is the perfect way to encourage imaginative play and help curious children learn about prehistoric life.

♥ Features familiar favourites and introduces children to new species including Stegosaurus, Allosaurus, Velociraptor, Triceratops, Apatosaurus, Sinosauropteryx, Carnotaurus, Pachycephalosaurus, Tyrannosaurus Rex and Ankylosaurus

♥ Lightweight and compact, this activity pack is the perfect on-the-go companion for young adventurers and promises to be a family favourite on car or train trips, holidays, and daytrips

♥ Each pack contains 35 reusable dinosaur stickers

♥ Great gift – an absolute must-have for children who love dinosaurs

# ELLA IN THE GARDEN OF GIVERNY

## A PICTURE BOOK ABOUT CLAUDE MONET

When a young girl meets the famous Claude Monet in his garden at Giverny, she learns the importance of staying true to your own vision.

This intriguing child's-eye view of Claude Monet and his works starts at the turn of the 20th century, when American artists flocked to Giverny to study the painter's technique. It tells the story of Lily, the daughter of one such artist, who sneaks into Monet's garden and develops a friendship with him. As Lily sketches, Monet talks about his life. He explains the idea of Impressionism in a way that will make children not only understand the genre, but also want to imitate it themselves.

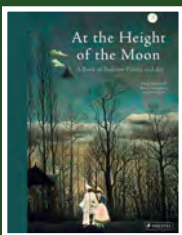

Young readers will learn about important moments in Monet's life, while also appreciating the easy camaraderie between a wise and experienced artist and a young, opinionated yet impressionable painter. The book ends with a brief biography of Monet and information about Giverny and museums that feature Monet's work.

# Paint Brushes for Frida

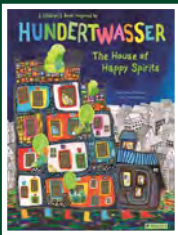

A Children's Book Inspired by Frida Kahlo

This beautifully imagined tale of artistic struggle and perseverance is inspired by Frida Kahlo's Self Portrait with Monkeys. Illustrated with paintings that recall Kahlo's bold, colourful style, it takes readers inside Kahlo's bedroom, where she typically painted, and shows how the artist brilliantly incorporated the natural world into her work.

Frida is lying in her bed, imprisoned by painful injuries she sustained in an accident. She yearns to paint, but can only manage to sing what is in her imagination. Suddenly, a jar of paintbrushes falls off her nightstand and a pool of vibrant colour spreads across the floor. A monkey called Caimito scurries to help her with his friends, gathering her brushes, paint and canvas. Frida is so happy and grateful for the monkeys' assistance that she manages to create a new painting, a triumphant self-portrait with Caimito in her arms. The book explores the major themes of Kahlo's work - physical pain, enduring love, and steadfastness - as well as the symbolism of plants, animals and numbers.

# PAINT WITH THREAD

A STEP-BY-STEP GUIDE TO EMBROIDERY THROUGH THE SEASONS

Slow down and embroider your way through the changing seasons with the beautiful debut book from embroidery artist and rising star Emillie Ferris.

Needlepainting, also known as thread painting or silk shading, is a form of embroidery that creates a realistic, lifelike effect using a single strand of thread and one simple stitch – the 'long and short' stitch. You can create gorgeous colour gradients, magical details and flowing stitch directions that are perfect if you want to embroider flora and fauna.

In this richly illustrated step-by-step guide, self-taught embroidery artist Emillie Ferris shows you how to pick up a needle and thread in the same way as a paintbrush to create strokes of colour and bring images to life on fabric.

# Atlas of Modern Clothing

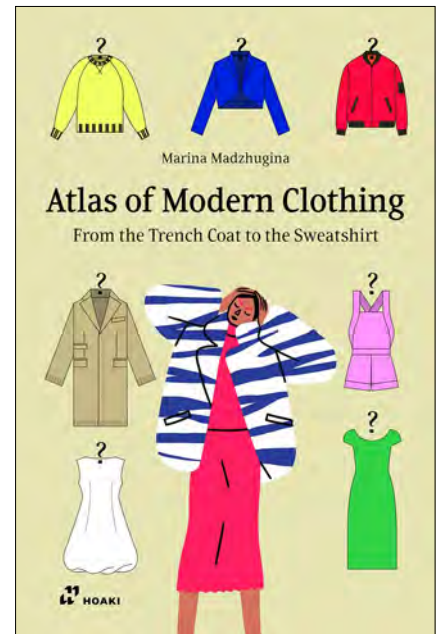

## From the Trench Coat to the Sweatshirt

This beautifully illustrated and inspiring atlas for fashion designers and fashionistas reveals the structure, characteristics and materials of contemporary garments for women and men.

A handbook for clothing designers, stylists and fashionistas, this dashing publication uses beautiful illustrations and drawings to highlight the design and key details of various forms of contemporary clothing, such as coats, jackets, shirts, tops, blouses, dresses, trousers, shorts and skirts. Traditional and contemporary materials, colours and textures for different styles are also listed.

This atlas will help designers in their work, no matter which creative method of costume design they choose: inversion, analogy, empathy, fantasy, creating new combinations and problem-solving.

It is meant to be a source of inspiration and a useful tool for artists and designers working with clothing, and will be of interest to anyone who is passionate about fashion and style.

# Dressed to Swill

## Runway-Ready Cocktails Inspired by Fashion Icons

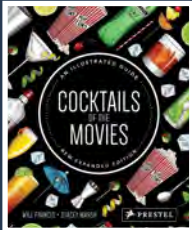

Go fashion forward with this brand new collection of easy-to-make cocktails that offers a dollop of sartorial history with every drink.

Dressed to Swill contains sixty original cocktail recipes inspired by style icons from the 20th century to today, including fashion designers, models, photographers, stylists, influencers, and more. Karl Lagerfeld's tippie is made for royalty: it's similar to a Kir Royale, but brings in the velvety flavours of raspberry and vanilla. The Kim Kardashian is sensuous, flavourful, and as subtly delicious as its subject. From Alexa Chung and André Leon Talley to Coco Chanel and RuPaul, there's a flavour to fit every mood, be it avant-garde, glamorous, rebellious, or little-black-dressy. Engaging biographies explore each person's contributions to the field of fashion, and the illustrations are sprinkled with fun details about their lives.

Perfect for birthdays, girls' nights in - as well as for Instagram - this book makes finding the right cocktail as exciting and surprising as shopping for a pair of shoes to complete your look.

GIFT

# You & Me Are So Nice Together

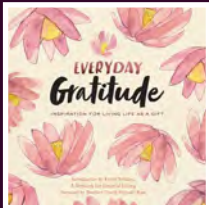

Celebrating Friendship in Words and Pictures

This quirky, creative tribute to friendship features illustrations from 60 contemporary artists from around the world, each inspired by a quote or saying about friendship, which accompanies the art. Unexpected, artsy, and a bit offbeat, this distinctive gift book offers a fresh take on this timeless subject.

Sixty international, prize-winning artists put a fresh visual spin on the many facets and values of friendship in this quirky, contemporary combination of pictures and words. The art styles range from sweet to graphic, abstract, cartoon, graphic novel, representational, collage, and more. In a beautiful gift package, with a foreword by Lydia Denworth, author of the acclaimed book *Friendship*, the honest, heartfelt-with-attitude approach of *You & Me Are So Nice Together* is the perfect antidote to the overly sentimental odes to the enduring and never-more-important gift of friendship. Two pull-out postcards featuring art from the book are included as a bonus feature.

# HOBBIES

# Visite Privée

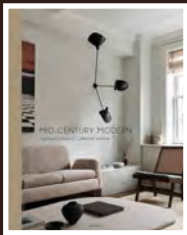

## Artists & Creatives at Home

Visite Privée examines the residences of a select group of professional artists who work across a broad range of artistic styles. This book provides a unique glimpse into these artists' beautiful home environs from around the world, and shares how each of these modern craftspeople and artists takes inspiration from the transformation of their home interiors and surroundings to live a creative life.

- ♥ This lavishly illustrated book offers a glimpse into the homes of contemporary artists and modern makers from around the world
- ♥ Engaging descriptions of each project provide details on the design, functionality, architecture, and interior transformations that help these practitioners in their creative process
- ♥ Inspiring insights reveal how the creative spaces and homes make living a more creative life possible

# The Hitler Myths

## Exposing the Truth Behind the Stories About the Führer

Adolf Hitler remains one of the most discussed figures in world history. Every year, an untold number of articles and books are published, and television programs and internet pages are produced, by respected historians through to amateur conspiracy theorists. One of the consequences of this continuous flow of stories is that, over time, increasing numbers of falsehoods and fabrications have emerged about Hitler.

How much of what we think we know is the result of intentional or misunderstood modern interpretations? Many rumours also circulated during Hitler's life and, with the passage of time, have been presented as facts despite having no substantial foundation. Was Hitler really a hero of the First World War and, if so, why was he not promoted beyond the rank of corporal? Was he the true author of Mein Kampf and did he write a second book that was never published, and was Hitler initially a socialist?

The myths - the familiar and the obscure - are discussed chronologically, following the course of Hitler's life. In his analysis of each of the myths, the author draws on an array of sources to prove or disprove the rumours and speculations - once and for all!

# THE SAS 'DENIABLES'

SPECIAL FORCES OPERATIONS, DENIED BY THE AUTHORITIES, FROM VIETNAM TO THE WAR ON TERROR

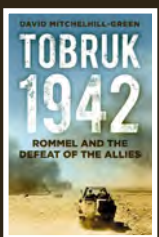

During the 10,000-day Vietnam war Australia had agreed with the United States to have a team of Australian Army Special Air Services (SAS) soldiers conduct covert missions into Cambodia. The SAS soldiers would be bivouacked in Thailand. With their names changed for security and personal safety reasons, this is a dramatised story of events that actually happened involving a small band of Australian Special Air Service trained specialists involved in covert intelligence activities who were co-opted into the Defence Intelligence Organisation (DIO) repertoire of Plausibly Deniable assets deployed worldwide into the shadows of political indulgence in locations where Australian forces should not be seen or heard. These Australian SAS Covert operations undertaken are incidents that have never before been exposed and include cross-sovereign-border infiltrations into Cambodia and the daily operations of the elimination of Viet Cong munition dumps. Also revealed are an unauthorised fatal attack by United States Army helicopters on SAS warriors; the rescue of French tourists kidnapped by Muslim terrorists in Mindanao, Philippines, and Operation 'Eye of the Storm' into Northern Kuwait/Eastern Iraq evolving into Desert Storm. This astounding expose opens the closed door behind which governments operate to deal quietly with situations they prefer not to mention.

# CHASING LIGHT

Captured in vivid colour, the moments that photographer Stefan Forster uncovers in out-of-the-way places in nature take place on adventurous backcountry trips far from civilisation, where he carries up to 40 kgs in camera gear and camping equipment.

With enormous enthusiasm but still prepared for anything, he often hikes through remote areas for weeks at a time on his search for the extraordinary. He has taken long solo kayak trips along Greenland's west coast, hopped from island to island in Micronesia, and slogged through the swamps of Louisiana and Texas to find the area's most beautiful cypress trees, all the while dodging alligators. His method yields unique, fascinating photos.

This book shows this youthful photographer's "greatest hits" to date: everything from rare rainstorms in the world's driest desert and the Northern Lights shimmering through icebergs, to spectacular shots of the Rocky Mountains.

# The LAST DAYS of the DINOSAURS

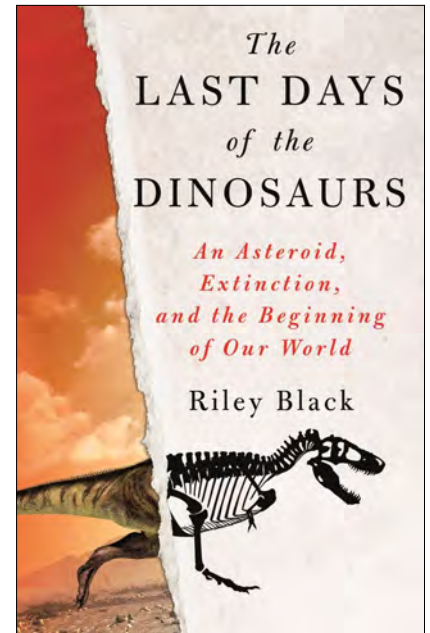

*An Asteroid, Extinction and the Beginning of Our World*

A fascinating exploration of the world's worst mass extinction – and how it shaped all subsequent life on our planet.

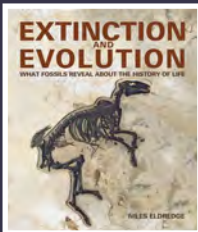

Picture yourself in the Cretaceous period. It's a sunny afternoon in the Hell Creek ecosystem of North America 66 million years ago. A Triceratops horridus ambles along the edge of the forest, enjoying this endless summer of the dinosaurs. But in a matter of hours, everything here will be wiped away. Lush verdure will be replaced with fire. Tyrannosaurus rex will be toppled from its throne, along with every other species of non-avian dinosaur no matter their size, diet or disposition. This is the end of the Age of Dinosaurs.

As we watch, an asteroid some seven miles across is set to slam into the earth, leaving a geologic wound over fifty miles in diameter. In the terrible mass extinction that will follow, more than half of known species will vanish seemingly overnight in both searing fire and constricting cold. The dinosaurs will all but disappear as mammals rise to claim and reshape the planet.

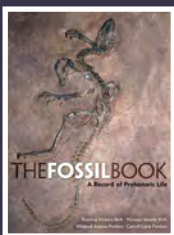

In *The Last Days of the Dinosaurs*, Riley Black walks readers through what happened in the days, the years, the centuries and the million years after the impact, drawing from the latest science to track the sweeping disruptions that overtook Hell Creek and the rest of the planet. Even during a time of horrible destruction and loss, life will find a way.

# 150 GOLF COURSES

YOU NEED TO VISIT BEFORE YOU DIE

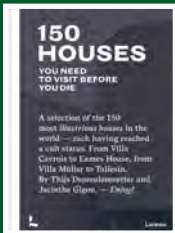

Following 150 Bars, 150 Restaurants, 150 Hotels, 150 Houses and 150 Gardens, 150 Golf Courses You Need to Visit Before You Die is the newest addition to the successful 150 series.

Here are the most beautiful golf courses in the world presented in a handy and handsomely illustrated guide. The golf courses bundled in this book are located all over the world and can be found along coastlines, in the mountains, in deserts, and along lakes, and they are all accessible to the public.

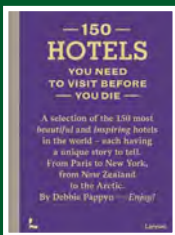

"When great golf courses meet the world's most stunning land forms, it makes for the most epic experience in the game." - GolfPass

- ♥ A gift for every golfer who dreams of travelling the world to the most beautiful golf courses
- ♥ The 150 golf courses that every enthusiast will want to visit

# PUNCH NEEDLE

## 15 Contemporary Projects

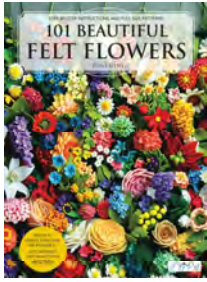

New contemporary designs and projects for punch needle, a craft that continues its meteoric popularity.

Sisters Rachel Lawson and Siobhan Watt combined their talents - Siobhan's professional art and design experience and Rachel's needlework expertise - to create these delightful contemporary designs. Punch needle is accessible for everyone, including those with no craft experience. It's a delightful hobby to discover and a perfect way to turn a stash of yarn into practical items! Explore this relaxing craft with clear illustrations, photographs, and step-by-step instructions. Learn the techniques, which tools to combine with particular yarns, and where to source materials. The 15 one-of-a-kind projects include rugs, plant holders, purses and bags, children's toys, pillows, wall hangings, framed art, and more. Start by creating small projects and move on to larger projects, challenging yourself as you progress and as you enjoy the fun and creativity that punch needle offers.

# Beginner's Guide to Reading Music

The perfect companion to "Chords for Kids" this is the ideal guide for those who may enjoy playing instruments, but have not yet mastered how to read music from the page. It is ideal for any age, but especially for children between 8 and 10 years old. This guide provides the essentials you need to know, explaining pitch, the treble clef, the bass clef, rhythm, accidentals, key signatures and time signatures. You can then practise what you have learnt with the 'Play Along' sections containing simple, well-known examples of music. It comes with helpful diagrams, clear accessible text and a practical spiral-bound format.

- ♥ Ideal companion to "Chords for Kids"
- ♥ Works for any age

# Arthurian Myths

Many medieval writers, especially from France and Wales, wrote stories about the great British leader that was King Arthur. Legends, folklore and myths from this period come together to paint a picture of who he was. Some describe him as a great warrior, defending Britain from its enemies, while others suggest Arthur had magical qualities. Throughout this mystery, King Arthur has become an iconic figure, known for his court and knights, all over the world.

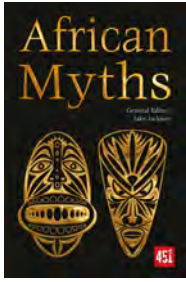

This collection offers a selection of myths, featuring Arthur's knights of the round table, his love for Queen Guinevere and of course the ultimate betrayal by one of his most trusted knights, Sir Lancelot. All awaken the magical and exciting world of King Arthur.

- ♥ *Captures the drama and mystery of ancient legends*
- ♥ *A carefully considered selection of chivalry and knighthood from Celtic, French and medieval sources.*
- ♥ *Features an introduction to the characters, landscape and culture*
