Moody Blooms

Designing with Nature

In the designs of Tricia Guild, atmosphere is everything. Patterns, colour, texture, furniture and furnishings interweave to create spaces that have all the depth and meaning of installation art. Yet just as an outfit never feels complete without a spritz of scent, a room without plants is only nearly complete. Only nearly perfect.

At Designers Guild, Tricia Guild uses flowers, leaves and stems to enhance a room's mood, bringing soul to the spaces we live in. A flower has many spirits over the course of its life, from the promise of those first pristine and innocent buds, to the resplendent joy of full blooms and the wistful glory as they fade. The cycle of nature provides an ever-evolving muse for Tricia Guild.

Her latest book explores how blooms can evoke emotion, presenting a plethora of inspirational designs that breathe fresh life into our homes and workspaces.

CHAGALL

Masters of Art

Explore the vibrant work of artist Marc Chagall in this lively introduction and discover how his unique narrative style embraced Jewish culture and folklore.

Marc Chagall's remarkable oeuvre spans a variety of media; from painting, ceramics, and stained glass to illustration, tapestry, and stage sets. Regardless of the format, his singular narrative style embraced the memories of his happy childhood in Vitebsk, Russia and his roots in Jewish culture.

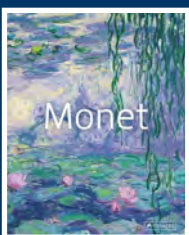

This engaging examination of the artist and his life features stunning full-page illustrations of Chagall's works, along with illuminating biographical details. On every page, Chagall's genius with colour and composition spring to life. Although he depicted the harsh anti-Semitism that his countrymen faced, Chagall nevertheless embraced a vision of humanism and tolerance that remains refreshingly poignant decades after his death.

DEGAS

Masters of Art

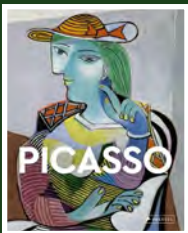

Get a glimpse into the life and work of painter, sculptor and printmaker Edgar Degas, who is regarded as one of the founders of Impressionism.

Best known for his depictions of young dancers on the stage and in the studio, Degas was an accomplished draughtsman and portraitist of superb emotional depth. Much of his work eschewed bright colours and spontaneity for carefully studied interiors and scenes of daily life.

A biographical text traces Degas' life from his studies at the Ecole des Beaux-Arts and his early history paintings to his friendships with Cassatt and Manet, his reliance on painting dancers to keep him financially afloat, and his lonely, final days in Paris. Accessible and engaging, this exploration of Degas' life and art looks beyond his well-known works to reveal a talented and complicated genius.

FINDING MY CALM

Teaching children mindfulness through the senses at a young age can help them build confidence, learn to cope with stress and realise they can overcome challenging moments in their life. Using the fun 'Five, Four, Three, Two, One' rhyme is an easy way for children to remember to use their senses to find their way back to calm.

From the authors of the best-selling range of books about emotions including: Aroha's Way: A children's guide through emotions, Let It Go: Emotions are energy in motion, Aroha Knows and How Do I Feel? A Dictionary of Emotions for Children. The Wilding Crew are sharing yet another way that you and your children can regulate your emotions together.

WHAT CAN I SAY?

A Kid's Guide to Super-Useful Social Skills to Help You Get Along and Express Yourself

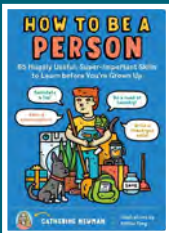

In *What Can I Say?*, Catherine Newman, author of the bestseller *How to Be a Person*, provides supportive guidance and instruction to help kids establish or and maintain meaningful relationships and effective communication with friends, teachers, family members and others in their communities.

Talking the talk can be tricky, and every page of this super-useful book provides easy, accessible scripts and guidance on the right thing to say in all kinds of situations, from how to be inclusive, listen, give advice, argue, stick up for yourself, and ask for help to how to turn down a date, express sympathy, deal with offensive comments, respond to bullying, and be trustworthy.

Humorous, graphic-style illustrations that play our familiar scenarios reinforce Newman's friendly, non-judgmental tone and her commitment to helping kids develop the skills to express themselves clearly while showing empathy, care and generosity towards others.

KNITTED WILD ANIMAL FRIENDS

Go wild with this brand new collection of adorable knitted wild animal toys and their clothes and accessories by best-selling author Louise Crowther.

After the success of Knitted Animal Friends, Louise has created knitting patterns for 12 new, wild animals including a zebra, elephant, lion, tiger, chimpanzee, sloth, koala, bear, hippopotamus, panda, giraffe and even a rhinoceros - all with their own distinct personal style! The animal dolls all have the same basic body shape and size so that all of the outfits are interchangeable (they also work for the dolls in Knitted Animal Friends too), so you can mix and match your favourites. There are instructions for how to construct the animal dolls and outfits as well as step-by-step photography for any unusual techniques.

There are so many possibilities for animal and outfit changes so that you can make the perfect doll for the cheeky monkeys in your life.

IRENE STRANGE'S Curious Crochet Creatures

Stuffed toy crochet patterns like you've never seen before – weird and wonderful creatures in crochet!

In this extraordinary collection, crochet designer Irene Strange opens our eyes to the wonders of nature with amigurumi patterns for odd and unexpected animals that you won't find in other books. Think an aardvark can't be adorable? Think again!

In this book you'll meet 16 rather curious creatures. You'll create furry tummies, spiky backs, scaly tails, and feathery necks. Some have long dangly legs, some have swirly tails, and some have features that baffle us all! But however strange, all the creatures included are surprisingly squishable when created in crochet.

With easy crochet techniques and step-by-step instructions, this book will delight crocheters and animal lovers alike, and give you a fresh cohort of amazing crochet animals to hug.

MIXED & SHAKEN

Essential Cocktails

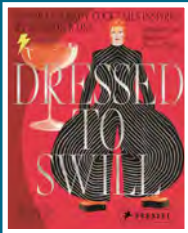

With this handy guide, you can make drinks, whether fancy or easy, classic or modern, that will fit any occasion.

Following the detailed instructions of skilled bartenders, everyone will be able to duplicate these 260 recipes at home. The recipes are divided into four different themes: evergreen cocktails (such as the Hugo and Tequila Sunrise), happy hour (such as the Beethoven and Margarita), after-dinner (such as the Alexander and B-52), and trendy cocktails. For each drink, the book offers readers the perfect proportions of ingredients, the best techniques, and the nutritional information about calories and alcohol content.

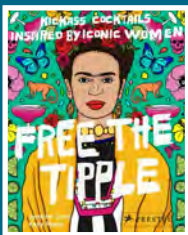

- ♥ The perfect volume for bartenders, mixology lovers, and cocktail fans
- ♥ A full collection of 260 easy, tasty, and fancy drinks
- ♥ Still-life pictures show the perfect colour and final result of the recipes in this book

THE FALL OF THE LUFTWAFFE IN COLOUR

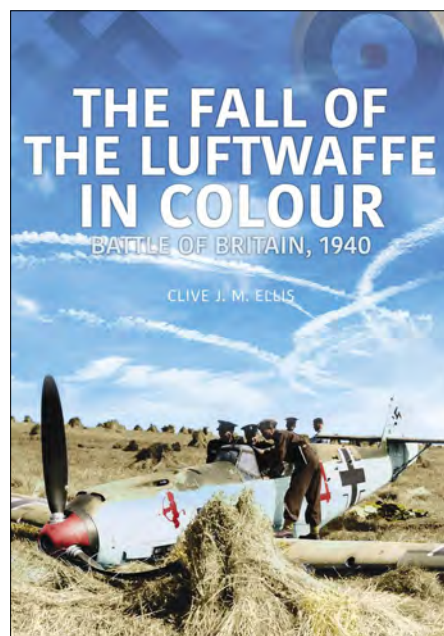

BATTLE OF BRITAIN, 1940

A unique investigation into the rarely covered subject of the downed Luftwaffe planes of 1940.

Meticulously researched over the course of 20 years, this colour rendition of the Luftwaffe's Eagles in defeat accurately portrays the stark reality of the desperate days in 1940 when Britain stood alone.

Using an extraordinary combination of stunning colourised images and extensively researched text, this book gives a new and different perspective on the battle between 'the few' and Hitler's vaunted Luftwaffe.

It contains some 200 photographs of downed enemy aircraft, painstakingly colourised today, showing the rare spectacle of new colour from the Battle of Britain period.

OPERATION NEPTUNE THE PRELUDE TO D-DAY

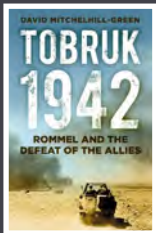

Long-awaited, the Normandy landings were the largest amphibious operation in history. Success was achieved by the advent of specialised landing craft – first seen in the landings in North Africa – heavy naval firepower and the creation of two artificial harbours, each the size of the port of Dover, and an underwater pipeline.

Operation Neptune: The Prelude to D-Day tells the story of this incredible feat using eyewitness accounts of the landings and the breaching of Hitler's famed 'Atlantic Wall'.

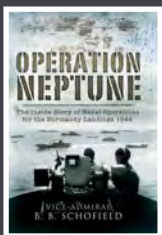

David Wragg explores the earlier Allied and Axis experiences with amphibious operations and the planning for Neptune and Overlord. He reveals the naval support needed once the armies were ashore and before continental ports could be captured and cleared of mines, with operations such as minesweeping off the Normandy coast, which led to one of the worst 'friendly fire' incidents of the war. This is the must-read book to understand what made D-Day possible.

the art of AFFIRMATIONS

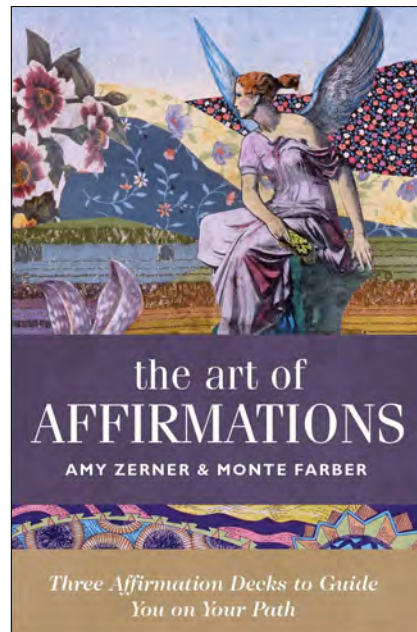

MIND BODY SPIRIT

The perfect tool for anyone striving to achieve a goal and find the best life possible through the power of affirmation.

Our strongly felt beliefs can affect the way we see ourselves and how we respond to others, both positively and negatively. Now you can improve your life and harness your creative potential by using The Art of Affirmations.

This three-deck set, of 36 cards each, is dedicated to empowering and motivating you at the very core of your consciousness in its own unique way. It's as easy as pulling a card, once a week or a few times a day, to replace negative ways of thinking with more-constructive ones.

Select from three decks, Divine, Heal, and Breathe, and let yourself connect to the message on the card or be inspired by the symbolism of the artwork. With The Art of Affirmations as your guide, you will be able to develop spiritual skills, energise your life, and restore a sense of well-being.

TRAINS

From Steam Locomotives to the Future of Sustainability

This glorious visual celebration of train travel keeps you on the right track with stop-offs at the most important and incredible rail routes from all over the world. From the ancient steam locomotives to the latest high-speed models in Europe and China, as well as the first hydrogen-powered convoys, this volume is a fascinating journey in the world of trains. From the Union-Pacific Railroad to the Trans-Siberian Railway, you'll cross the continents to experience epic journeys and staggering scenery. You'll pick a seat on the most iconic locomotives, including the Orient Express, the Blue Train, and the Eurostar.

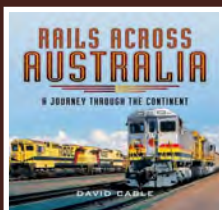

You can also inspect the famous British trains, such as Rocket, Mallard, and Javelin, and international trains, such as India's Palace on Wheels and Australia's The Ghan. You'll meet the true pioneers of train and track, including "Father of the Railways" George Stephenson and engineering legend Isambard Kingdom Brunel. For train-spotters and transport enthusiasts everywhere, this is your trip of a lifetime.

STILL LIFE

TECHNIQUES AND TUTORIALS FOR THE COMPLETE BEGINNER

Still Life is an accessible instruction course for complete beginners to learn how to draw and paint contemporary still-life subjects.

Following a concise guide to the tools, materials and basic techniques that every beginner needs to know (including line, tone, colour, composition and perspective), there are ten tutorials showing how to draw and paint a variety of still life subjects using beginner-friendly materials, including pencil, charcoal, coloured pencils, pen and ink, watercolour paints and watercolour pencils. Each tutorial has a list of the materials and tools required, step-by-step photographs of the work, informative text and tips and strategies for getting the best results. By working through the tutorials, you will gradually develop your skills and build confidence until you feel equipped to attempt any still life. In addition to the tutorials, you'll find three 'focus on' feature spreads. These pages offer more in-depth/ advanced techniques appropriate to the projects.

My First Book About OUTER SPACE

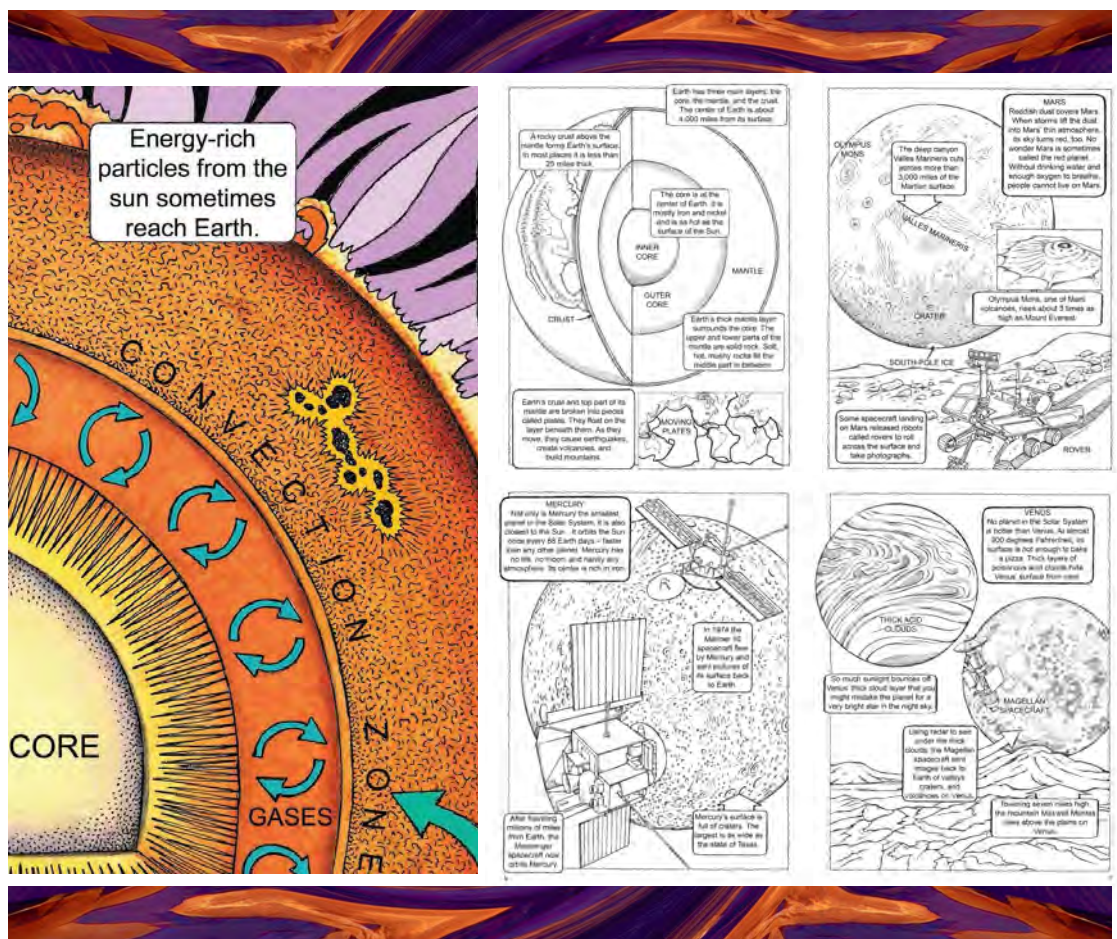

Take a kid's-eye view of the universe!

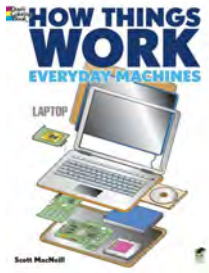

What's out in space? How did the planets form?
Find out as you take a trip to the stars!

- ♥ Fun-to-colour illustrations
- ♥ Fact-filled captions

Where do we live among the galaxies, what did people think before they could study the sky with telescopes, and what happened to Pluto?

Thirty-nine illustrations to colour answer these and other questions about our Solar System and beyond. Entertaining, easy-to-understand captions explain crater formation, constellations, weightlessness, space junk, and other fascinating subjects.

SEVEN PILLARS OF WISDOM

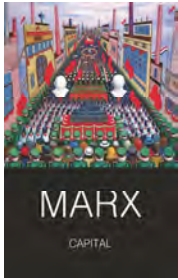

"It ranks with the greatest books ever written in the English language. As a narrative of war and adventure... it is unsurpassable."
- Winston Churchill.

T. E. Lawrence's autobiographical tale, the basis for the film *Lawrence of Arabia*, offers a firsthand account of the Arab Revolt against the Turks. Lawrence was already a living legend by the time of this book's initial publication, and his colourful, poetic memoir paints a fascinating portrait of the Middle East during World War I.

Faced with a deadlock on the Western front, the British pursued the opening of an Eastern front by persuading the Arabs to attack the Ottoman Empire. Lawrence's understanding of Arab culture and his skills as a tactician made him the ideal liaison. His action-packed accounts of desert campaigns and acute observations of people, places, and events form a vivid historical record that combines the power of a heroic epic with the intimacy of an autobiography.

'Seven Pillars of Wisdom' is a complex work of high literary aspiration which stands in the tradition of Melville and Dostoevsky, and alongside the writings of Yeats, Eliot and Joyce.
