GREG HANSELL

PURITY OF AUSTRALIAN LIGHT

Greg Hansell is a landscape painter known for his exclusive devotion to pastels, some of which he makes himself. He is best known for his corrugated iron subject matter which features frequently in his work. He is the Art School Director of The Royal Art Society Art, where he has been teaching since 1997. Hansell has lived in the Windsor and Hawkesbury district for many years, where he has a house, studio and a large flourishing garden which often features in his work. His interest in this historic part of NSW stems from its association with Arthur Streeton and Charles Conder who worked in the area in the heyday of Australian landscape painting. His most recent works, the result of a greater freedom in his use of pastels, are an impressive series of landscapes which have extended the direction of his work. He has been hung in the Art Gallery of New South Wales Wynne Prize numerous times and is twice winner of the Mosman Art Prize. This book covers Hansell's work from 1982 to the present day. It has an introduction by Lou Klepac who selected the works, an essay by Carol Roberts, and recollections and notes by the artist.

ART

THE PRE-RAPHAELITE LANGUAGE OF FLOWERS

This exquisite collection of paintings illustrates just how marvellously the Pre-Raphaelites' focus on the natural world intersected with the Victorian passion for all things botanical.

Short-lived but highly influential, the Pre-Raphaelite movement was fuelled by a rejection of academic artistic conventions and a longing for the aesthetic simplicity and moral sincerity of medieval and early Renaissance art. But it also coincided with a Victorian obsession with botany, gardening and flower arranging. As a result, painters such as Rossetti, Millais and Hughes populated their works with floral symbols that were steeped in religious and cultural significance.

This stunning book examines the greatest of these works, including portraits of Hamlet's Ophelia, the Virgin Mary, and figures from Greek mythology and medieval lore. Each entry features a full-page reproduction of the painting, accompanied by smaller details and an engaging text that offers fascinating background and contextual clues to deepen readers' appreciation of the Pre-Raphaelite language. As lush and colourful as a late summer bouquet, this book is the perfect gift for lovers of flowers as well as for fans of romantic Victorian art.

HAPPY FLOWER PAINTING FOR BEGINNERS

First-time artists and flower lovers will unlock their creative potential with this beginner-friendly guide to painting!

Budding artists will learn to paint 20 beautiful blooms with the expert instruction of professional painter and licensed artist Bethany Adams. From classic roses and hydrangeas to charming peonies, coneflowers, and dahlias, every flower includes simple step-by-step instructions. Each tutorial is clearly illustrated so that you can follow along stroke by stroke. After mastering the flowers, you will learn how to combine them to create 10 gorgeous floral compositions such as a bouquet, wreath, floral heart, vase arrangement, and more.

Perfect for first-time artists, this book includes an informative but not overwhelming overview of acrylic paint, brushes, canvases, and colour mixing. Overflowing with the author's infectious enthusiasm, the book also includes creative encouragement and positive messages throughout.

LIVE LIKE A VIKING

DISCOVERING THE SECRETS OF THE VIKINGS

Live Like a Viking is a fascinating and informative journey back in time to find out what it was really like to live in the Viking age.

The Vikings have a fearsome reputation as warriors. In reality, they were much more than that. From farmers and craftsmen to musicians and explorers, Viking society and culture has left a lasting impression on our modern world.

At the peak of their power, the Viking population soared to two million! Get ready to discover what it was like to live in this epic era. Learn about out how these master seafarers invaded countries across Europe using iconic wooden longships, about family life, their beliefs, the place of women in society, how they dressed and what they ate, as well as their language, customs and rituals.

The book also includes step-by-step craft activities and recipes to have a go at. Dotted throughout are fictional accounts by a young girl that bring the Viking era to life and enable readers to understand what it was like to live like a Viking.

KAFFE FASSETT'S BRILLIANT LITTLE PATCHWORK COLLECTION

A new collection from world-renowned textile artist Kaffe Fassett.

Kaffe Fassett's Brilliant Little Patchwork Collection features 20 projects to quilt and stitch using all-new fabrics.

The collection includes:

- ♥ Easy patchwork projects to quilt and stitch
- ♥ The celebrated, bold, and colourful Kaffe Fassett fabrics
- ♥ Over 200 gorgeous, vivid photographs throughout

20 fun, quick-to-stitch accessory projects. These little quilting projects are easy to make and stitch up fast (unlike full-size quilts). They can be fashioned over a weekend or a few cozy afternoons as Kaffe walks readers through each project step by step.

Each simple project is infused with all the colour and pizzazz of Kaffe's larger works, mixing and matching bold colours and patterns with ease in projects like aprons, tablecloths, kimonos, cushions, and mini quilts.

PINK BOOK

FASHION, STYLES & STORIES

The Pink Book: Fashion, Styles & Stories is a dedicated series that comprehensively explores one of the most important themes in the fashion industry: colours. As the title suggests, this book focuses on all shades of pink, from vibrant fuchsia to delicate rose. The two authors, Heide Christiansen and Martin Fraas, showcase the power and allure that pink embodies through captivating runway shots.

These dynamic fashion photographs were captured at major haute couture shows by renowned designers and brands like Dior, Chanel, and Gucci, or emerged as street style photography from the bustling life of a metropolis.

Any fashion enthusiast will be thrilled by this unique coffee table book. It serves as an inspiration for those passionate about fashion brands, high fashion, and the runways of the fashion industry. With its luxurious presentation and exquisite tactile quality, The Pink Book: Fashion, Styles & Stories almost becomes a fashion item itself. It is suitable as an upscale gift or a standout piece for any home library.

NAPOLEON'S LIBRARY

THE EMPEROR, HIS BOOKS & THEIR INFLUENCE ON THE NAPOLEONIC ERA

Napoleon Bonaparte held absolute political power in France and his influence stretched across Europe and beyond. Yet he remained – between leading his armies and ruling over a vast empire – an indefatigable reader who even carried libraries into battle.

Bonaparte’s love of the written word, birthed in childhood and nurtured as an adolescent and young adult, never left him. He was a lover of literature for its own sake – often swooning over melodramatic love stories – but he also understood the value of books as instruments of power. Before his campaigns, he poured over dozens of texts relating to the relevant theatres’ geography, population, trade, and history. When contemplating grave decisions, such as his divorce to Empress Josephine, he consulted the historical record for useful precedents to justify and inform his actions. To bolster his troop’s morale during challenging times, he constantly referenced history in his proclamations, making his contemporaries feel as if they were actively shaping history. They were.

The library of an individual is the key to his mind. Behind the grandiose paintings of the victorious conqueror and the constructions of the propagandist, stands the reader. This book is an attempt to glimpse Napoleon’s character without the veneer of imperial glory.

FLAME TREE COLLECTORS' EDITIONS CELTIC ANCIENT ORIGINS

Beautiful edition taking the reader through the origins and history of the mighty Celts, known at the time of Cleopatra and Julius Caesar, highlighting the origins of modern fiction in myth and fable.

To most of us, Celtic culture is at once distinctive and enigmatic. Though we may acknowledge the Celtic heritage of Ireland, Scotland, Wales, Spain (Galicia) and France (Brittany), and be familiar with the mythology and literature that has given us Arthurian legend and all manner of boastful gods, High Kings, wilful Queens, noble warriors, fairies, goblins and wizards, few of us are aware that the origins of Celtic people lie in Austria, or that the many tribes that made up this very broad designation have a history that spans much further afield, to ancient Greece and Egypt.

This fascinating new book, written by Martin Dougherty and with a foreword by Prof Ralph Haussler, covers the history that has fed the legends: the origins, migrations, allegiances, society, culture, myths and literature of the Celts, from the 'Hallstatt Era' beginning in 1200 BCE to the Gaels of western Scotland and northeastern Ireland and eventual Christianisation.

D-DAY LANDING CRAFT

The D-Day Landings could not have happened without over 4,000 Allied landing craft and ships, and their crews. This book explains who they all were.

The contribution of landing craft and their crews to the 1944 Normandy campaign was enormous but is often overlooked. Most of the more than 132,000 Allied troops who landed on the beaches on D-Day came ashore from landing craft. The book examines why so many different types of landing craft were used in the operation; how they were built in both the UK and North America, over several years and with many competing war production requirements and operational needs. Consequently, their availability and production was regularly of concern to the top Allied leaders.

This account is essential to anyone who wants to fully understand the course of D-Day, and the nature of Allied preparations for the campaign.

HIMMLER'S CHILDREN

The Nazis' dream was to populate their future Greater-German Reich exclusively with 'racial valuable' people and Himmler became the main executor of this gruesome and unimaginable plan. For this purpose, millions of 'inferior' people had to be expelled or killed, while as many men, women and children of Germanic descent as possible had to be brought together in the territory of the Third Reich.

Children were the key players in Himmler's sinister plans, and the Lebensborn programme exploited luxurious maternity homes, led by SS-officers, for selected women with the required Aryan features. Himmler considered their offspring as the future nobility of the Germanic empire. Obsessed with racial purity and birth rates, the Lebensborn programme fell directly under Himmler's personal control, and arguably became his favourite project. On Himmler's orders, tens of thousands of blond, blue-eyed children in Poland, Slovenia, the Czech Republic and other countries were abducted for 'Germanisation'.

Himmler was so absorbed by the racial delusion, he was convinced this policy served a dual purpose: by abducting the 'superior' children, he robbed the subjected countries of their future leaders, while at the same time, strengthening the 'Germanic race'.

THE HIDDEN PUBS OF LONDON

London's leading pub tour guide and host of the celebrated Liquid History Tours guides readers off the beaten path and through the doors of London's lesser known but most authentic pubs. Welcome to the world of London's finest backstreet boozers.

It's easy to stumble into London iconic pubs. The ones where Shakespeare trod the boards, or Dickens scribbled his next novel. What's more difficult and ultimately more rewarding, is finding that special pub that has just the right vibe; the pub that's tucked away from the maddening crowds of tourists and noisy out-of-towners; that almost mystical pub that you'll want to return to on a rainy evening, or show off to your friends.

These are the hidden gems that Warland introduces you to. Covering every corner of London from the city centre to its outer limits and beyond, these watering holes are permeated by personality and a passion for traditional hospitality. Warland is a delightfully engaging companion, but the pubs are the stars of this invaluable book that's as informative as it is collectible.

WILD HORSES

Photographer and wildlife activist, Alfie Bowen presents his two-year-long project photographing Britain's wild horses through the eyes of someone living with autism spectrum disorder. Wild Horses is all about connection: Bowen's personal connection to the animals he photographs; his connection to photography as an art form; the horses' connection to one another; and our collective connection to the land and our planet.

Bowen borrows the words of American landscape photographer Ansel Adams to describe his approach to his work: 'You don't make a photograph just with a camera. You bring to the act of photography all the pictures you have seen, the books you have read, the music you have heard, the people you have loved.' For Bowen, photography is an outlet for his emotional energy. It enables him to draw from difficult moments in his life and turn the energy that manifests from his emotions into truly mesmerising images.

BUDAPEST GEM

Budapest, the vibrant capital of Hungary, is a city of enchanting contrasts. In the western part of the city, Buda, landmarks like Fisherman's Bastion, Buda Castle, and Matthias Church stand as testaments to its rich history, while the Pest side boasts modern icons like the House of Parliament, the Opera House, and Heroes' Square. The Széchenyi Chain Bridge gracefully spans the Danube, linking the two halves of the city.

Beyond its storied past, Budapest pulsates with a dynamic present, epitomized by cultural fusion and creative fervour. Artists, filmmakers, and innovators thrive here, blending nostalgia with a forward-looking energy. Budapest Gem, featuring original photography by Oliver Pilcher, captures the city's essence, inspiring readers with its timeless allure.

OUR WORLD AUSTRALIA

Wadjiginy author and Australian illustrator add this board book about daily life in Australia to the Our World series for very young readers.

Let's spend a day in Australia! Fish at a secret fishing spot, surf at the beach and play backyard cricket before enjoying a treat at the night market. Wadjiginy author Maree McCarthy Yoelu and Australian illustrator Sophie Beer draw on their experiences living in Australia to create this appealing board book as part of the Our World series for very young readers.

GRAVITATIONAL WAVES

HOW EINSTEIN'S SPACETIME RIPPLES REVEAL THE SECRETS OF THE UNIVERSE

On 14 September 2015, after 50 years of searching, gravitational waves were detected for the first time and astronomy changed for ever.

Until then, investigation of the universe had depended on electromagnetic radiation: visible light, radio, X-rays and the rest. But gravitational waves – ripples in the fabric of space and time – are unrelenting, passing through barriers that stop light dead.

At the two 4-kilometre long LIGO observatories in the US, scientists developed incredibly sensitive detectors, capable of spotting a movement 100 times smaller than the nucleus of an atom. In 2015 they spotted the ripples produced by two black holes spiralling into each other, setting spacetime quivering.

This was the first time black holes had ever been directly detected – and it promises far more for the future of astronomy. Brian Clegg presents a compelling story of human technical endeavour and a new, powerful path to understand the workings of the universe.

Hot Science is a new series exploring the cutting edge of science and technology. With topics from Martian exploration and big data to astrobiology, graphene technology and gene editing, these are books for popular science readers who like to go that little bit deeper ...
