THE WORLD'S MOST EXPENSIVE WATCHES

More than a fashion accessory or means to tell the time, the wristwatch has become a statement of identity; politician or celebrity, scientist or sportsman, what you choose to wear on your wrist speaks volumes about who you are.

'The World's Most Expensive Watches' presents some of the most extravagant, intricate, collectable, decadent, or just plain interesting modern-day timepieces that sit at the top of the price spectrum. Starting at a threshold price of about \$200,000, it is a trip through the last decade or so of watches whose values soar incredibly to prices of \$5 million dollars or more.

Prepare to be impressed by a larger-than-life-look at some relatively small items that command not only huge prices but kudos and respect, in all areas of a global society fascinated with using accessorising to create identity.

♥ A beautifully constructed volume that lends itself to intimate visual horological voyeurism; witness the craftsmanship, design and sheer luxury of some of the world's most exclusive wristwatches

HR GIGER

THE OEUVRE BEFORE ALIEN 1961-1976

Swiss surrealist artist HR Giger (1940–2014) achieved international fame in 1979 for designing the fantastic creatures and eerie environments that terrified moviegoers in Ridley Scott's science fiction film *Alien*. Yet before these iconic creations made him a celebrity and won him an Oscar for visual effects, Giger was already highly regarded in the international art world for his unique freehand painting style and biomechanical dreamscapes.

HR Giger: The Oeuvre Before Alien 1961–1976, first published in 2007 and now becoming available again in a new edition, is the only book to date to document the artist's lesser known, but no less impressive, early work. This lavishly illustrated volume traces Giger's career from his education as an architect and industrial designer at the Zurich College of Art to the development of his ink drawing and oil painting technique and his eventual breakthrough as one of the foremost artists of the fantastic realism school.

HR Giger: The Oeuvre Before Alien illuminates the mind of a visual genius whose first artistic experiments were decades ahead of their time.

MEMOIR OF VINCENT VAN GOGH

Vincent van Gogh's short, passionate life was driven by an almost unimaginable creative energy that eventually overwhelmed him. The outlines of his story – the early strivings in Holland and Paris, the revelatory impact of the move to Provence, the attacks of madness that led ineluctably to his suicide – are almost as familiar as the paintings. Few however knew Van Gogh as well as his sister-in-law.

After Vincent's death and that of her husband, his brother Theo, Jo van Gogh-Bonger devoted her life to preserving and exhibiting his paintings, and editing his letters. It is thanks to her tireless work that Vincent's greatness as an artist (and indeed as a writer) came to be acknowledged. Jo's short biography of Vincent is perhaps the closest we can come to Vincent the man, as seen by those who knew him.

SECRET AGENT, UNSUNG HERO

THE VALOUR OF BRUCE DOWDING

Young Australian teacher Bruce Dowding arrived in Paris in 1938, planning only to improve his understanding of French language and culture. Secret Agent, Unsung Hero draws on decades of research to reveal, for the first time, his coming of age as a leader in escape and evasion during World War II. Dowding helped exfiltrate hundreds of Allied servicemen from occupied France and paid the ultimate price. He was beheaded by the Nazis just after his 29th birthday in 1943.

- Author, Peter Dowding is the nephew of Bruce Dowding. He is a prominent Australian lawyer and a former Western Australian Premier
- Uses first-hand accounts to evoke life in France before, during and after the German invasion
- Dissects the early history of Allied escape and evasion during World War II
- Examines the life of prisoners after the Nacht und Nebel decree and the Nazis' secret use of the guillotine
- Brings from the shadows a forgotten Australian hero, denied France's highest national honour by his own government's negligence

and six times the batsman in his plum cap
leaned very attentively and returned an answer."*

On the church green, white figures
Cross and re-cross in a scrupulous dance.
One clasps tenderly a ball, rolling
It in his groin. One watches from the fence
Two men with staves who seem to be leaders
Striking the sacred soil. As if in a trance
They crouch. The ball is loosed, is struck, falling
Impotently to one who hitches up his pants.
Grass burns green fire; like flames
The white men flicker, fumble all the bright
Afternoon. One in a dairy coat tames
Wild cries with a blessing, as tight
To the boundary cattle crowd, and the ball claims
All its victims in the summer rite.

BRITISH & COMMONWEALTH WARSHIP CAMOUFLAGE OF WWII

During the Second World War navies developed low visibility camouflage for their ships, on both the vertical and horizontal surfaces, in order to reduce visibility by blending in with the sea, or confuse the identity of a ship by applying more obtrusive patterns. In this now classic work by maritime artist Mal Wright both the official and unofficial paint schemes that adorned ships of the Royal Navy and Commonwealth are depicted in detail, along with discussion on changes of armament and electronics that effected the outward appearance of each ship.

Starting with destroyers from WW1 still in service during WW2, the book progressively covers ships below cruisers, class by class, to provide a detailed and easy-to-use guide to paint schemes in use. In some cases individual ships are shown in the several schemes they wore thus providing a source that covers various periods of service. With 740 full colour illustrations, all of named vessels, this book concentrates information into a single volume to provide a one-stop reference source, and, for the first time in a single volume, it covers not just the well-known ships, but also escort vessels, minesweepers, trawlers, coastal craft and auxiliaries in sequential format.

THE HITLER I KNEW

THE MEMOIRS OF THE THIRD REICH'S PRESS CHIEF

"Up to the last moment, his overwhelming, despotic authority aroused false hopes and deceived his people and his entourage. Only at the end, when I watched the inglorious collapse and the obstinacy of his final downfall, was I able suddenly to fit together the bits of mosaic I had been amassing for twelve years into a complete picture of his opaque and sphinx-like personality." - Otto Dietrich

When Otto Dietrich was invited in 1933 to become Adolf Hitler's press chief, he accepted with the simple, uncritical conviction that Adolf Hitler was a great man, dedicated to promoting peace and the welfare for the German people. At the end of the war, imprisoned and disillusioned, Dietrich sat down to write what he had seen and heard in twelve years of the closest association with Hitler, requesting that it be published after his death. Dietrich's role placed him in a privileged position. He was hired by Hitler in 1933, and was a confidant until 1945, and he worked and clashed with Joseph Goebbels. His direct, personal experience of life at the heart in the Reich makes for compelling reading.

DEPECHE MODE

EVERY ALBUM, EVERY SONG

For four decades, Depeche Mode dominated electronic music, from the naïve melodies of 1981's *Speak & Spell* through to 2023's *Memento Mori*. Through changing line-ups featuring Vince Clarke, Alan Wilder, and Andy Fletcher, singer Dave Gahan and main songwriter Martin Gore have been the band's core. Starting as teenagers and now in their 60s, they have survived worldwide fame, addictions to drink and drugs, and near-death experiences, while continuing to innovate as technology and the music business evolved. An acclaimed live band, it is through their 15 studio albums that Depeche Mode have best expressed themselves, from the industrial darkness of *Black Celebration* (1986) to their popular breakthroughs with *Music For the Masses* (1987) and *Violator* (1990) and the emotional upheaval of 1993's *Songs of Faith and Devotion*. The band survived the chaotic fallout from that album and tour in the mid-1990s, with Gahan experiencing a near-fatal drug overdose, to regroup with *Ultra* (1997). They continued their explorations of love, death, sex, and politics on acclaimed albums *Playing the Angel* (2005), *Delta Machine* (2013), and *Spirit* (2016). Inducted into the Rock and Roll Hall of Fame in 2020, proven survivors Depeche Mode's story is here told in song by song detail.

SHIPS OF SPLENDOUR

PASSENGER LINERS IN COLOUR

The great passenger liners of the twentieth century make for iconic images of maritime history and design. This beautiful, full-colour book presents the development of passenger ships across the twentieth century, from the 1920s, through the 1940s, and the heyday of the 1950s and '60s, until the onset of the jet age. The fleet includes the famous passenger ships such as the great Cunarders, titans of the North Atlantic like the United States, France and Michelangelo, and other icons including the Southern Cross, Windsor Castle, Canberra and Oriana. Replete with notes, facts and anecdotes about these ships, the history of the passenger liner is broken down ship-by-ship and decade-by-decade. These ships return to the high seas once again in superb detail and vibrant colour.

BREAD & HENNA

MY TIME WITH THE WOMEN OF A YEMENI MOUNTAIN TOWN

Bread and Henna: an engaging travel narrative relating a social anthropologist's experiences of eighteen months living among the women of a small mountain town in Yemen during the early 1980s.

Through insights into the life and cuisine of a remote community, Ianthe Maclagan offers an authentic window on a world that has gone and an intimate portrait of a country typically in the news for reasons of war and famine. An engaging and authentic travel narrative, *Bread and Henna* relates social anthropologist Ianthe Maclagan's experiences of eighteen months living among the women of a small mountain town in Yemen during the early 1980s. After a gruelling road journey, she is initially taken in by a family who provide support and hospitality but charge extortionate rent. Maclagan then sets up on her own, struggling with isolation and practicalities such as getting water and cooking.

One day, female neighbours establish contact by offering cuttings for her rooftop garden. Then, by throwing pebbles from their roof down Maclagan's stairwell, they invite her to run errands for them. Gradually Maclagan is drawn into the life of the town and, in turn, takes it into herself. This memoir will enthrall lovers of travel writing, people interested in the workings of different societies and the lives of women, and those who have travelled to Yemen, or have yearned to do so.

ARE SELFIES MAKING YOU SAD?

Posting pictures of yourself on social media can be very sad. But sometimes it can also cause anxiety and loneliness. Here's how to take care of your feelings.

There are a few things you can do to make sure you're not taking photos of yourself for the wrong reasons. First, ask yourself if you're really happy with the way you look. If you're not, it's probably not a good idea to post it. Second, think about how you might feel if someone else posts a picture of you without your permission. It can be embarrassing and hurt your feelings. Finally, remember that you're not alone. Many people feel the same way about posting photos of themselves.

1. Copying likes and replies

It's tempting to check your social media accounts every time you wake up in the morning. But this can be a bad habit. Instead, try to limit how often you check your phone. You can also try to focus on the things you like to do in real life, like spending time with friends or pursuing your hobbies.

Making a comparison

It's easy to compare yourself to the people you see on social media. But it's important to remember that everyone has their own struggles. You might see someone who looks like they have it all together, but you don't know what they're really going through. Instead, try to focus on your own life and the things you're grateful for. You can also try to reach out to friends and family if you're feeling down.

2. Added to attention

It's tempting to post things on social media just to get attention. But this can be a bad habit. Instead, try to post things that you're proud of or that you think are interesting. You can also try to focus on the things you like to do in real life, like spending time with friends or pursuing your hobbies.

Agree the factors

It's important to remember that you're not alone. Many people feel the same way about posting photos of themselves. You can also try to reach out to friends and family if you're feeling down.

3. Stay safe

It's important to remember that you're not alone. Many people feel the same way about posting photos of themselves. You can also try to reach out to friends and family if you're feeling down.

4. Avoid the addiction

It's important to remember that you're not alone. Many people feel the same way about posting photos of themselves. You can also try to reach out to friends and family if you're feeling down.

SELFIES – THE ALTERNATIVES

- Make your own content. Instead of posting photos of yourself, try to create your own content. You can do this by writing a blog, creating a video, or starting a podcast.
- Focus on your strengths. Instead of comparing yourself to others, try to focus on your own strengths. You can do this by listing out the things you're good at and the things you're proud of.
- Spend time with friends. Instead of spending time on social media, try to spend time with your friends. You can do this by going to a movie, hanging out at a cafe, or just talking to them on the phone.
- Pursue your hobbies. Instead of checking your phone, try to spend time on your hobbies. You can do this by reading a book, painting, or practicing a sport.
- Remember to be kind. Instead of being mean to others, try to be kind. You can do this by complimenting others, helping them out, or just being a good person.
- Focus on the things you love. Instead of worrying about what others think, try to focus on the things you love. You can do this by spending time on your hobbies, spending time with friends, or just enjoying life.

DON'T BE SORRY

Do you ever start sentences with 'sorry' for something you did or said? It's a bad habit. You don't need to be sorry for everything you do. You can be confident and proud of who you are. You can also try to focus on the things you like to do in real life, like spending time with friends or pursuing your hobbies.

Why so many apologise?

Most people are taught from an early age to be nice and polite, to think of others, to say sorry when they make a mistake and take responsibility. That's not wrong. It's a good thing to be a conscientious member of society. But when you apologise because someone has hurt you, it can be a sign that you're not standing up for yourself. You can also try to focus on the things you like to do in real life, like spending time with friends or pursuing your hobbies.

When to apologise for real

There are a few things you can do to make sure you're not taking photos of yourself for the wrong reasons. First, ask yourself if you're really happy with the way you look. If you're not, it's probably not a good idea to post it. Second, think about how you might feel if someone else posts a picture of you without your permission. It can be embarrassing and hurt your feelings. Finally, remember that you're not alone. Many people feel the same way about posting photos of themselves.

Turn apologies into gratitude

Instead of apologising, try to focus on the things you're grateful for. You can do this by listing out the things you're good at and the things you're proud of. You can also try to reach out to friends and family if you're feeling down.
