BLAKSTAD

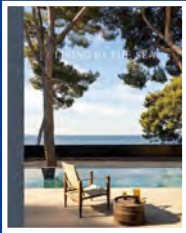

IBIZA HOUSE DESIGN

Following the success of the first book published, Ibiza Blakstad House Design collects the new and most recent constructions of the architecture studio founded by Rolf Blakstad and developed later by his sons Rolf and Nial.

Blakstad Design Consultants fuse the fundamentals of traditional Ibiza architecture with contemporary functionality, form and style. A deep respect for Ibiza's unique architectural heritage forms the basis of a Blakstad project while new technologies, materials and cutting-edge design creates stunning luxury villas across the Balearic Islands, mainland Spain and internationally. In the lexicon of Ibiza architecture, the phrase 'a Blakstad house' has become shorthand for beauty and quality, carrying a prestige based on excellence and experience.

Living on the Edge

Buildings that seem to defy the laws of gravity.

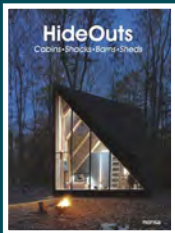

In *Living on the Edge*, the author goes in search of the most amazing and seemingly unfeasible buildings which are situated at the edge of deep chasms and on steep cliffs. These houses are the work of architects who approach complexity and difficult conditions with imagination and a talent for thinking outside of the box.

This book shows how, with the help of innovative techniques, fear of heights-inducing homes have been built at the most challenging locations all over the world. *Living on the Edge* is a book for architecture lovers without fear of heights!

- ♥ Amazing buildings that seem to defy the laws of gravity
- ♥ More than 40 case studies on building in the most 'unbuildable' places, with insights from architects

FRUIT

Lifelike and delectable watercolours of fruit - in a book about as tall as a pear.

Between 1886 and 1942, the U.S. Department of Agriculture's Pomology Division - pomology being the study of fruit growing - commissioned an illustrated register of fruits. These watercolour illustrations were invaluable to growers, who used them as records of prized varieties that were in danger of being stolen or counterfeited by competitors. The illustrations realistically portrayed fruit in all conditions, showing not only immaculate pomegranates fit to eat off of the page but bruised bananas as well. These watercolours, most of which were painted by women, chronicle an agricultural landscape at the turn of the twentieth century and provide a visual time capsule of many fruit varieties now lost.

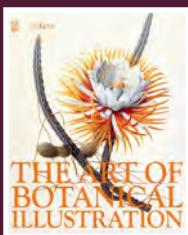

This book highlights 250 vibrant and mouthwatering watercolours which will entice both gourmets and art lovers.

JEAN-MICHEL BASQUIAT

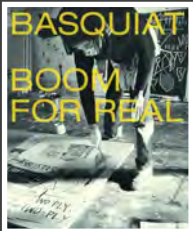

OF SYMBOLS AND SIGNS

Jean-Michel Basquiat's symbolic, complex, and often emotionally charged work made a huge impact on the 1980s downtown New York City art scene. And though his all-too-brief career ended when he died at age 27, Basquiat left behind an enormous legacy - not only in the number of works he produced, but also in the messages he encoded around political, social, racial, and cultural issues.

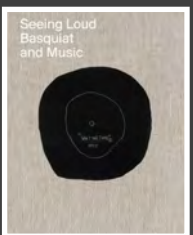

This exciting book shows how Basquiat used an intricate network of signs and symbols to challenge the very system that made him a darling of the art world. It traces his inspiration from cartoons, children's drawings, and advertising as well as his own Haitian and Puerto Rican heritage; discusses the influence of African-American, African, and Aztec cultural histories; and shows how Basquiat incorporated into his work classical themes and contemporary icons--from athletes to musicians. What becomes clear is how, even as a young man, Basquiat had a profound understanding of the artist's role in art history, and of his unique position as a young Black artist in a world of racism, suppression and social injustice.

WOMEN STREET ARTISTS

24 CONTEMPORARY GRAFFITI AND MURAL ARTISTS FROM AROUND THE WORLD

The power, glory, diversity, and talent of women street artists finally gets the attention it deserves in the first book to focus solely on the female gaze writ large on urban walls and sidewalks across five continents. This exciting book is an important first step in shedding light on the substantial number of women who are gaining fame in the street art world. It brings together the work of 24 artists, through dazzling photographs of their work and intimate portraits of their lives based on interviews collected by award-winning journalist Alessandra Mattanza.

On walls, sidewalks, prison cells, grain silos and other nontraditional canvases, these artists tackle ideas around empowerment, feminism, the pink revolution, body shaming and body imagery, racism, and the climate crisis. South African multidisciplinary artist Faith XLVII imbues her narratives with a longing for a deeper connection to nature, and a resurrection of the divine feminine. Italy's Camilla Falsini incorporates joyful, bold colours and simple shapes to deliver serious messages about the environment. Shamsia Hassani, one of Afghanistan's first female street artists, makes vibrant murals and paintings in which women play musical instruments as a vehicle for self-expression.

THE LITTLE PRINCE

A beautifully illustrated tribute to celebrate 80 years of The Little Prince.

In 2023, The Little Prince will celebrate 80 years of unsurpassed success. One of the most published and translated books in the world (by some accounts, second only to The Bible). Never before have its themes of loneliness, loss, love, and friendship been more relevant. While The Little Prince is packaged for children, it is appreciated and celebrated by parents and friends.

This edition includes the entire, unmodified, original text by Antoine de Saint-Exupery, first published in English after his exile to the U.S. in 1943 - accompanied by exclusive illustrations from Mondo Mombo, a well-known, Italian, children's-art firm founded by Claudia Bordin.

KAFFE FASSETT'S Quilts in Wales

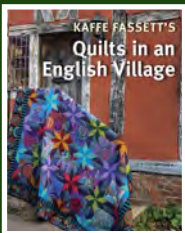

With his unerring eye, Kaffe has succeeded in finding the perfect location for his exquisite new collection of quilts, featuring both his scintillating new fabric designs and his classics, all in his unique colour palette. This time he has chosen the iconic 13th-century Powis Castle in north Wales, where the 20 quilts in this book are set off against the storybook castle and stunning grounds.

Kaffe's Saturated Red quilt finds its perfect partner in the rich deep hues of the bed hangings on a magnificent four-poster, while his Cold Frames quilt, with its dramatic black-and-white sashing framing fussy-cut flower prints, echoes the studding on the medieval wooden doors into the courtyard. The cool geometry of his Marble Tiles quilt takes its inspiration from the painted paneling in the Long Gallery, and his Vintage Library quilt echoes the warm tones of the hundreds of leather-bound books in the Castle's collection.

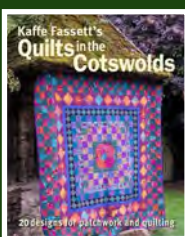

As usual, this book - the 24th in the series - includes a range of quilts for all skill levels, from beginners to advanced, and features an eclectic mix of patterns and colours. Flat shots and a practical know-how section and glossary back up the fully illustrated, step-

MODERN CALLIGRAPHY BIBLE

101 Alphabets from Artists around the World

101 artists from around the world celebrate all calligraphy and lettering can be, through different styles, mediums, and languages. A fresh, modern take on calligraphy that goes beyond the traditional.

Language, writing, and letters are the basis of our communication as human beings - and calligraphy celebrates the inherent beauty of this need to share and connect. This volume showcases what calligraphy has grown to be in the 21st century, featuring 101 artists from the worlds of graffiti, tattooing, graphic design, painting, illustration, poster art, comics, and more. Their different mediums, styles, and languages, including imaginary ones, show the endless potential and inspiration of turning letters into art. The artists, from 20 countries, share alphabets in vibrant colour and black and white, in clarity and in chaos, in pencil on paper and paint on walls. In our digital age, where screens and keyboards have taken over, this ancient art still thrives.

Diana: A Life in Dresses

'I literally had one long dress, one silk shirt, one smart pair of shoes and that was it' – so Princess Diana said of the day she and Prince Charles got engaged. Sixteen years later, Diana would pass away, no longer the girl with one dress, but a global fashion icon who had raised more than £2 million for charity by selling 79 of her dresses at Christie's auction house in New York.

This chic and stylish book opens Diana's wardrobe to the world. From the Regamus debutante's dress Diana wore at a ball at Althorp, her family estate, to her infamous Christina Stambolian 'Revenge' dress, which she wore on the night Prince Charles publicly admitted his adultery with Camilla Parker Bowles, each iconic moment is captured in these pages.

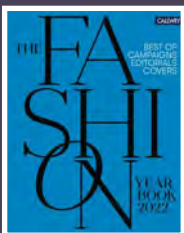

Claudia Joseph chronicles Diana's style evolution from the days she shopped with her mother for her wedding trousseau at Harrods, to her discovery of her wedding dress designers, the Emanuels, and her relationship with Vogue fashion director Anna Harvey, who introduced her to designers such as Catherine Walker, Jacques Azagury and Versace. She looks at the designers who shaped Diana's image and tracks down her most symbolic dresses to museums around the world.

New European Baking

99 Recipes for Breads, Brioches and Pastries

From sweet to savory, basic breads to fancy pastry, this elegant and thoroughly modern cookbook distills centuries of European tradition and heritage into mouthwatering recipes that home bakers can create in their own kitchens.

This collection of nearly one hundred recipes is presented with elegant yet friendly flair by Laurel Kratochvila, a Jewish, American-born, boulangerie-trained baker with her own bagel shop in Berlin. Each chapter is dedicated to a certain kind of baked product - breads, brioches and enriched doughs, viennoiseries and laminated pastries, tartes and biscuits - and includes foundational recipes and time-honored techniques for dough-shaping, fermentation, seasoning, and fillings.

Sprinkled throughout the book are profiles introducing readers to eleven other European bakers who are turning out delicious pastries and breads that reflect the cultural heritage of their home cities of Paris, Warsaw, Copenhagen, Madrid, London and Lisbon. Recipes such as Baltic rye bread, toasted sesame challah, elderflower maritzozi, honey and fig trope'zienne, lamb and fennel sausage rolls, soft pretzels, and spicy ginger caramel shortbreads combine Old World traditions with twenty-first century flavours.

THE COMPLETE BOOK OF GROUND COVERS

An essential compilation of the most garden worthy ground covers.

Ground covers are widely thought of as utilitarian - we turn to them when we have a problem that needs a solution. How fast will it fill an area? Can we put it into the tight spaces between pavers? How much foot traffic can it withstand? Yet these plants also offer a diverse range of beautiful and intriguing options with a variety of colours, textures, and forms. They can unify a landscape, knit together plantings and hardscape, and add extra layers of beauty, dynamism, and surprise. As a replacement for lawns, they can reduce our use of water, fertiliser, pesticides, herbicides, carbon-based fuels and transform a yard into a diverse landscape of habitat and food for native insects, birds and other wildlife.

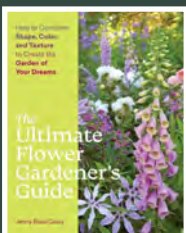

In this meticulously researched reference, nurseryman Gary Lewis profiles more than 4000 ground covers that can perform these roles with aplomb. No matter what kinds of conditions you're facing - shade, dry soil, heavy clay, excess moisture - there's a ground cover that will thrive and beautify your garden.

Ten Poems about Sisters

A sister often knows us better than anyone. This selection of poems (a companion to Ten Poems about Brothers) explores that special relationship – from the games and secrets of early childhood that we remember so vividly to the separate journeys of later life.

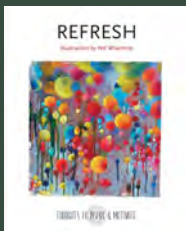

For Dorothea Smartt, two sisters form a pair of carefree 'toe-tapping feet' while Jean Tepperman's depiction of sisterhood celebrates the thrill of defying convention. In Galway Kinnell's moving poem a childhood shared with a sibling creates a reassuring lifelong bond:

*"...we will walk
hand in hand a little while,
taking the laughter of childhood
as far as we can into the days to come,"*
- from 'Two Set Out On Their Journey' by Galway Kinnell

Most of all, these poems remind us of that life is enlivened and enriched by having a sister. Never coy or timid, they are sure to provoke discussion – and hopefully many lively family conversations!

When the time comes
to shut the book and
set out,
we will take
childhood's laughter
as far as we can into
the days to come,
until another
laughter sounds back
from the place
where our next
bodies
will have risen and
will be telling
tales of what seemed
deadly serious once,
offering to us
oldening wayfarers
the light heart, now
made of time
and sorrow, that we
started with.

Introduced with a foreword by best-selling historian and author Adrian Goldsworthy, Sumner's beautiful colour reconstructions of Ancient Roman warriors over time are complemented expertly with informative, enlightening text by eminent historian and author Simon Elliott. This combination of Sumner's illustrations and Elliott's writing leaves no stone unturned as they divulge information about this fascinating period of military history in mesmerising, intricate detail. Readers will swiftly become fully immersed in this ancient world, and will leave it with a wealth of knowledge about and a profound understanding of the warriors of Ancient Rome, and a great appreciation for Sumner and Elliott's expertise in the area.

WARRIORS OF THE ANCIENT GREEK WORLD

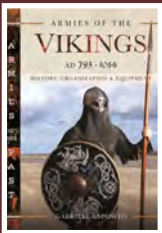

This in-depth visual guide, *Warriors of the Ancient Greek World*, boasts over 140 lavishly detailed photographed and illustrated recreations of the warrior panoplies of the fifth and fourth centuries BC.

It covers the heavy infantry and cavalry of Greece and Macedonia, the light infantry and horsemen of the Thracian territories and the fighting men and women of the vast Persian and Scythian realms.

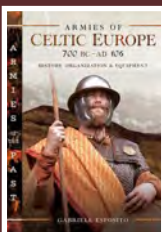

The book has been crafted to show these ancient combatants in as much physical, gritty detail and character as possible. The combatants are seen torn from moments in time and dropped onto the page. It illustrates the range of distinct weapons and equipment carried by them, why it was needed and how it was made. It shows how the warriors may have looked whilst on campaign, mud, blood and all.

JAPANDI STYLE

When Japanese and Scandinavian Designs Blend

Japandi is the newest and hottest trend in interiors: a harmonious combination of functionality, comfort, and the minimalist look that characterises Scandinavian design, with the purest elegance of traditional Japanese craftsmanship.

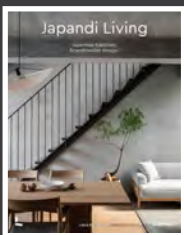

Japandi harmoniously blends Scandinavian hygge with wabi-sabi, a concept derived from Zen Buddhism that advocates peaceful sobriety and invites us to admire the beauty hidden in slight imperfections in nature. This first major survey of Japandi style will introduce the reader to the fundamentals, and to iconic objects that will transform an interior into a Japandi-inspired retreat. Chapter one of the book examines the converging principles that have contributed to the emergence of Japandi Style such as functionality, neutral colours, the importance of organic materials, and the thoughtful simplicity of shapes. Chapter two presents some of the most emblematic works of Japandi Style, and the design studios behind them. Chapter three gives examples of how to decorate and furnish rooms – the living room, dining room, bedroom, bathroom, winter garden, or home office – in Japandi Style.

BRITISH AVIATION THE FIRST HALF-CENTURY

The first half of the 20th century saw the birth of the airplane and its development as an instrument of war and commerce. Within five decades, contraptions barely able to take to the air had given way to jet-powered aircraft flying near the "sound barrier," a rate of technological advance unparalleled in any other field. It was the period when Great Britain's aviation industry was established and grew to its zenith, fueled by the demands of two world wars and the growth of the airlines. These requirements generated a plethora of aircraft designs, some of which became household names, while others failed to make the grade.

AURA

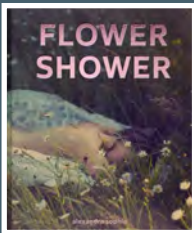

AURA is an aspirational and inspirational book dripping with evocative photographs of humble ocean pools that stir the soul of those who love a body of water to throw themselves into.

Swimming is a childhood rite of passage and an Australian obsession. Treasured ocean pools are where children learn to swim and keep on swimming. AURA explores the beauty of these east coast saltwater sanctuaries and the deep passion they inspire. Places where we are free to dive or leap into at no cost. Some dare to use the diving blocks, others swim down memory lanes.

The dawn and dusk shots are an encouragement to create a ritual of your own to enjoy the rich colours of the sky and sea, or perhaps instead a reminder of the one time you did. Developed by human efforts ocean pools are convenient and accessible, communal, sustainable and most of all restorative. Laura Reid's photographs plunge you in amongst the best of them.

Audrey Hepburn's Life in Pictures

An unrivalled icon of grace and femininity, Audrey Hepburn is perhaps the most beloved star in the history of cinema. She enchanted millions of people with the sweetness of her smile and her inimitable style and was able to renew her image throughout the decades, anticipating fashion trends and establishing a new ideal of beauty. This volume retraces Hepburn's incredible rise, from the early years to her worldwide fame.

The book is divided into four sections: 'A Star is Born', which follows Audrey's first steps into the spotlight as a doe-eyed dancer; 'The Golden Age', how Audrey became the muse of Hubert de Givenchy and gave Hollywood a new ideal of elegance; 'A Diva's Style', which touches on Breakfast at Tiffany's, where Holly Golightly went down in the history of cinema with her sunglasses and little black dress, along with many other of Audrey's later film work; and 'Saving the Children'. This final section of the book puts great emphasis on her humanitarian work as UNICEF ambassador, on the side of all the children of the world. Both on screen and in real life, Audrey has remained faithful to the elegance of understatement and kindness, hidden behind her unforgettable smile.

Historic Milestones in NASA's Human Space Flight

NASA has worked at the forefront of space exploration and research since 1958. Their devotion to furthering our understanding of what lies beyond our atmosphere has seen 12 humans walk on the surface of the moon, helped form the International Space Station, and placed numerous rovers on Mars. Voyager 1, launched by NASA on 5 September 1977, is the furthest manmade object from earth, having left our solar system entirely – and the agency's plans for the future are equally inspiring.

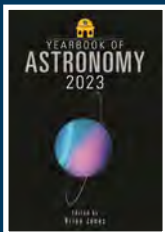

This book celebrates NASA throughout the years, from its inception to its 60th anniversary in 2018, and beyond. A visual tour-de-visual-force, the book collects high resolution NASA photos of historic significance; from rarely seen photos and the words of President John F. Kennedy commanding the space race, to the many triumphs and tragedies of the Apollo Missions, moon landings, the International Space Station, space shuttles, journeys to Mars and explorations of our galaxy's outer reaches.

ICONIC

ART, DESIGN, ADVERTISING AND THE AUTOMOBILE

A Ford GT with a custom Gulf Oil paint job, an Aston Martin DB5, Jacques Villeneuve's Reynard Formula Ford, Jaguar E-Types, Mercedes-Benz 300 SL's, and a 2015 Porsche 918m. These are only a few of the fabulous cars featured in Miles S. Nadal's awe-inspiring Dare to Dream Automotive Museum. With this remarkable group - still only a part of his overall collection - Miles has acquired some of the most celebrated automobiles of the past century. They are carefully curated for their significance, relevance, and, most of all, for their iconic essence. Each vehicle is accompanied by an authoritative history prepared by award-winning author Ken Gross matching with photographs by acclaimed photographer Michael Furman.

Every car is brought to life to the point where readers feel as they are walking through the museum. This volume examines what resonates with the public, what it takes to become more than just a car or more than just the person behind the wheel - and finally what it takes to become "iconic".

MATISSE

Masters of Art

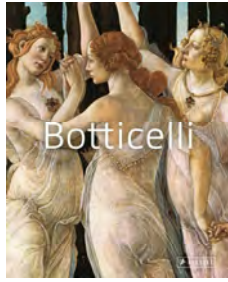

Learn about Henri Matisse, one of 20th century's most beloved artists, and his artistic legacy.

From his earliest pointillist-influenced paintings to this mature and playful paper cut-outs; from enormous, ebullient murals to reverent stained glass - Henri Matisse was renowned for his dramatic use of colour and fluid draftsmanship. Thirty of Matisse's most beloved works are given close attention in this introduction that explores the varying tensions of the artist's oeuvre - his embrace of pure colour, patterns, and texture; the languorous pleasures of the Cote d'Azur; primitive displays of human ecstasy; tranquil scenes of domestic life and soaring monuments to religious life. An engaging biography takes readers through every phase of Matisse's career and reveals how his aversion to troubling or depressing subject matter was in direct opposition to the radical spirit of his work.

The Essential Kafka

Like George Orwell, Franz Kafka has given his name to a world of nightmare, but in Kafka's world, it is never completely clear just what the nightmare is. 'The Trial', where the rules are hidden from even the highest officials, and if there is any help to be had, it will come from unexpected sources, is a chilling, blackly amusing tale that maintains, to the very end, a relentless atmosphere of disorientation. Superficially about bureaucracy, it is in the last resort a description of the absurdity of 'normal' human nature.

Still more enigmatic is 'The Castle'. Is it an allegory of a quasi-feudal system giving way to a new freedom for the subject? The search by a central European Jew for acceptance into a dominant culture? A spiritual quest for grace or salvation? An individual's struggle between his sense of independence and his need for approval? Is it all of these things? And K? Is he opportunist, victim, or an outsider battling against elusive authority?

Finally, in his fables, Kafka deals in dark and quirkily humorous terms with the insoluble dilemmas of a world which offers no reassurance, and no reliable guidance to resolving our existential and emotional uncertainties and anxieties.
